MANDALA COLORING 50 magic mandalas to color for all ages with multiple benefits relaxation concentration cure of diseases psychological regeneration meditation order and harmony The mandala is an instrument capable of influencing the general welfare of a person thanks to its ancient and welcoming circular shape It is an artistic expression but at the same time a powerful means of psychological regeneration and for this reason is used in meditation and traditional medicines where the state of good health of a person is measured with the general welfare that depends on balance of mind body and spirit Its circular shape and the presence of a center to reach or from where to start are the symbol of the presence of man in the universe And the mandala offers everyone the possibility of putting order and harmony in this illustration of the cosmos according to their own personal vision It stimulates creativity and releases positive energies that beneficially influence the psyche of the person It has been observed on several occasions that during the coloring of a mandala the atmosphere relaxes and the concentration increases naturally and effortlessly The action of coloring each part of the Mandala is the main activity with which each can be measured without preconceptions and without anxiety And this aspect makes the mandala an educational tool very useful

even in schools especially where there are students who suffer from concentration disorders The practice of the mandala has ancient roots and can be done by anyone with great benefit Because it moves deep energies it is necessary to respect certain rituals and have the awareness of not being a psychotherapist The mandala has a universal value and can be interpreted in as many ways as people personal stories moods and emotional experiences but the best are ourselves Before starting to dye it is not necessary to organize a vigil like that of the Tibetan monks or even to plan a healing ceremony like the Navajos it usually lasts nine nights and we run the risk of putting our nervous neighbors with lullabies and incense but by observing these rites some suggestions and some principles can be inherited and reworked to adapt them to our present Submerging ourselves in the mandala allows us to rediscover the primordial union with nature and with the elements that make it up which are part of our being and which we often complain about having lost in our daily lives There is no single technique deep breathing yoga closing your eyes or reciting a mantra are equally valid The purpose is to separate us for a few moments from the radiant and incessant rational activity and enter the space of the soul Once this has been done we will give the go ahead for the trip in the mandala that will be colored as we see fit and with the techniques we want without limits and without restrictions for our creativity and imagination The mandala does not lie Let your instinct flow and your activity be pleasant do not look for perfection because every mandala in itself is perfect if done with authenticity Do not insist with a color if you feel a certain discomfort and if this happens ask yourself why but it will please your creativity and it will be much more serene and fun

Because the Mandala is also a game **Coloring Mandalas 2** Susanne F. Fincher, 2025-09-09 Coloring the circular designs known as mandalas is a creative activity that brings relaxation healing and self understanding Susanne Fincher s first such coloring book Coloring Mandalas presented designs organized according to a scheme of twelve archetypal stages that represents a cycle of personal growth This sequel focuses on a single one of these stages Crystallization which is associated with the completion of a cycle of growth Imagine a fully opened rose in a sunny garden releasing its fragrance as it gently bobs in a summer breeze This is the feeling of the stage of Crystallization a time of reaping rewards and benefits from the work we have performed of realizing and appreciating our achievements of resting in the pleasure of having fulfilled a personal creative inspiration Crystallization is also a time of significant spiritual understanding when our spiritual nature comes together in harmony with our physical nature The mandalas in this book aim to Help us understand ourselves and our place in the scheme of things Evoke a sense of harmony order and fulfillment Provide relaxation and a soothing balance for hectic lifestyles Uncover meaning in the ongoing stream of human experience Deepen our meditation Enable us to experience the spiritual energy that inspired these sacred circles Healing Mandalas Lisa Tenzin-Dolma, 2013-11-05

Viewed as the key to self knowledge and inner peace in Eastern traditions a mandala is a symbolic spiritual image which when meditated on can bring about profound inner transformation This book offers a perfect way to combine contemplation with creativity helping us to ease anxieties and insecurities bring about change and regain our personal balance both through

colouring in these mandalas and through meditating on them afterwards Each mandala offers a place of refuge you can visit to recharge and reconnect with your essential self The imagery ranges from the dove of peace the rose of pure love and the floating lotus of the East to dolphins at play There is an introduction putting the symbolism and imagery of the mandalas in context as well as a directory of the mandalas in full colour at the back of the book **Magical Mandala Coloring Book**
