family farms on rural communities Drawing upon traditional literacy and composition research and employing theory from education and sociology the text engages compositionists in broader conversations regarding rural literacies The authors share strategies that will help compositionists participate in pedagogies that are rooted in a richer understanding of rural literacies and work toward sustainability for all communities in a globalized age *Updating the Literary West* ,1997

Western writers says Thomas J Lyon in his epilogue to *Updating the Literary West* have grown up with the frontier myth but now find themselves in the early stages of creating a new western myth The editors of the *Literary History of the American West* TCU Press 1987 hoped that the first volume would begin not conclude their exploration of the West s literary heritage Out of this hope comes *Updating the Literary West* a comprehensive reference anthology including essays by over one hundred scholars A selected bibliography is included with each piece In the ten years since publication of *LHAW* western writing has developed a significantly larger presence in the national literary stream A variety of cultural viewpoints have developed along with new tactics for literary study New authors have risen to prominence and the range of subjects has changed and widened *Updating the Literary West* looks at topics ranging from western classics to cowboys and Cadillacs and considers children s literature ethnicity environmental writing gender issues and other topics in which change has been rapid since publication of *LHAW* This volume again affirms the West s literary legitimacy status hard earned by the Western Literary Association and the lasting place of popular western writing as part of the growing and changing literary and American experience An excellent reference for a wide range of readers and an invaluable resource for scholars and libraries

Selected list of contributors James Maguire Fred Erisman Susan J Rosowski Gerald Haslam Tom Pilkington A Carl Bredahl Richard Slotkin John G Cawelti Robert F Gish Ann Ronald Mick McAllister *The Essential West* Elliott West,2012-10-29

Scholars and enthusiasts of western American history have praised Elliott West as a distinguished historian and an accomplished writer and this book proves them right on both counts Capitalizing on West s wide array of interests this collection of his essays touches on topics ranging from viruses and the telegraph to children bison and Larry McMurtry Drawing from the past three centuries West weaves the western story into that of the nation and the world beyond from Kansas and Montana to Haiti Africa and the court of Louis XV Divided into three sections the volume begins with conquest West is not the first historian to write about Lewis and Clark but he is the first to contrast their expedition with Mungo Park s contemporaneous journey in Africa The Lewis and Clark expedition West begins is one of the most overrated events in American history and one of the most revealing The humor of this insightful essay is a chief characteristic of the whole book which comprises ten chapters previously published in major journals and magazines but revised for this edition and four brand new ones West is well known for his writings about frontier family life especially the experiences of children at work and play Fans of his earlier books on these subjects will not be disappointed In a final section he looks at the West of myth and imagination in part to show that our fantasies about the West are worth studying precisely because they have been so at

odds with the real West In essays on buffalo Jesse James and the McMurtry novel Lonesome Dove West directs his formidable powers to subjects that continue to shape our understanding and often our misunderstanding of the American West past and present

American Agriculture and the Problem of Monopoly Jon Lauck,2000-01-01 The breathtaking number of mergers and joint ventures among agribusiness firms has left independent American farmers facing the power of an increasingly concentrated buying sector The origin of farmers concern with such

economic concentration dates back to protests against meatpackers and railroads in the late nineteenth century Jon Lauck examines the dimensions of this problem in the American Midwest in the decades following World War II He analyzes the nature of competition within meat packing and grain markets In addition he addresses concerns about corporate entry into production agriculture and the potential displacement of a production system defined by independent family farms Lauck also considers the ability of farmers to organize in order to counter the market power of large scale agribusiness buyers He explores the use of farmer cooperatives and other mechanisms which may increase the bargaining power of farmers The book offers the first serious historical examination of the National Farmers Organization which fully embraced the bargaining power cause in the postwar period Lauck finds that independent farmers attempts at organization have been more successful than previously recognized but he also shows that their successes have been undermined by the growing concentration and power of agri business firms justifying a new approach to antitrust law in agricultural markets *The Bloomsbury Review* ,1987 **The North Dakota Quarterly** ,1988 **The American West** ,1989 **Western American Literature** ,2003
