Resurging Asian Giants Klaus Gerhaeusser, Yoshihiro Iwasaki, V. B. Tulasidhar, 2010-07-01 The economies of the People's Republic of China and India have seen dramatic growth in recent years. As their respective successes continue to reshape the world's economic landscape, noted Chinese and Indian scholars have studied the two countries' development paths in particular their rich and diverse experiences in such areas as education, information technology, local entrepreneurship, capital markets, macroeconomic management, foreign direct investment, and state-owned enterprise reforms. Drawing on these studies, ADB has produced a timely collection of lessons learned that serves as a valuable refresher on the challenges and opportunities ahead for developing economies, especially those in Asia and the Pacific. **F&S Index International Annual**, 1997 *Autocar & Motor*, 1993-11 *Eastern Economist*, 1980 **Who's who in Finance and Industry**, 1973
