lively and engaging study of on screen and off screen performances of masculinity focusing on well known male actors in American film and popular culture in the 1990s and 2000s Peberdy examines specific social cultural historical and political contexts that have affected age race sexuality and fatherhood on screen *Textual Ethos Studies, or: Locating Ethics* ,2016-08-01 What is the relationship between texts and ethics Who decides the ethics of a text the writer or the reader What happens to ethics in texts that portray dreams or psychoses Is violence always inherently unethical In dealing with others is

violence to both them and oneself ever completely avoidable Textual Ethos Studies does not attempt to provide definitive answers to these questions so much as to be a springboard to the further discussion of ethics in relation to specific texts The essays illustrate varying perspectives ranging from the philosophical to the psychoanalytical to the linguistic that can be used to localize how texts engage or invite an engagement with ethics Twenty scholars representing Asia Europe Israel North America and South Africa highlight the complex relationship between cultural context and ethics and between the ethical and the unethical Several essays deal with the study of atypical texts that represent different attitudes toward the violent the disordered the traumatized the psychotic and the sentimental in order to encourage or provoke further discussion of the relevance of these types of texts to ethics **Encyclopedia of Religion and Film** Eric Michael Mazur,2011-03-08

Comprising 91 A Z entries this encyclopedia provides a broad and comprehensive introduction to the topic of religion within film Technology has enabled films to reach much wider audiences enabling today's viewers to access a dizzying number of films that employ diverse symbolism and communicate a vast array of viewpoints Encyclopedia of Religion and Film will provide such an audience with the tools to begin their own exploration of the deeper meanings of these films and grasp the religious significance within Organized alphabetically this encyclopedia provides more than 90 entries on the larger religious traditions the major film producing regions of the globe the films that have stirred controversy the most significant religious symbols and the more important filmmakers The included topics provide substantially more information on the intersection of religion and film than any of the similar volumes currently available While the emphasis is on the English speaking world and the films produced therein there is also substantial representation of non English non Western film and filmmakers providing significant intercultural coverage to the topic **Critics Not Caretakers** Russell T. McCutcheon,2023-11-30 The essays collected together in Critics Not Caretakers argue that the study of religion must be rethought as an ordinary aspect of social historical existence a stance that makes the scholar of religion a critic of cultural and historical practices rather than a caretaker of religious tradition or a font of timeless wisdom and deep meaning The book begins with several essays that outline the basis of an alternative sociorhetorical approach to studying religion before moving on to a series of discrete dispatches from the ongoing theory wars each of which uses the work of such writers as Karen Armstrong Walter Burkert Benson Saler and Jacob Neusner as a point of entry into wider theoretical issues of importance to the field's future The author then examines the socio political role of this brand of critical scholarship a role that differs dramatically from the type of sympathetic caretaking generally associated with scholars of religion who feel compelled to go public Concluding the work is a consideration of how scholars as teachers can address issues of theory method and critical thinking in a variety of undergraduate classrooms the location where they have always been publicly accountable intellectuals The new edition of this still read and for some controversial book preserves the original essays but includes a new opening chapter and new introductory commentaries across all of the chapters to demonstrate how little the field has changed since the volume was

first published in 2001 Accordingly the book continues to provide a viable alternative for those wanting to take a more critical approach to the study of religion
