Making a Soul John Godolphin Bennett,1995-01-01 **Classical Spirituality in Contemporary America** Michael S. Music: An Introduction H. K. Grumbein,2013-01-02 This book is an introduction to a new music theory based upon the perspectives of an artist which are supported by correspondences between sound and light and the philosophies gleaned from extensive research into the esoteric teachings of Christianity This book clearly and concisely introduces the basic framework for a completely new and fundamentally holistic approach to understanding writing and learning music Rather than learning the countless specific rules and exceptions and hundreds of historical examples this approach begins with a practical foundation in the general principles of music theory and encourages one to creatively discover original examples of how the different parts work together as a whole Most importantly this works aims to distill the most essential elements of music and to convey them in a simplified manner that grants potential artists a way to penetrate into the mysteries of music
