

MAKING JAPANESE-STYLE LAMPS & LANTERNS

Simple enough, yet sophisticated enough to satisfy advanced woodworkers, these designs for bedside, floor, over-head, wall-mounted, freestanding and outdoor lamps are an exceptional introduction to the art of Japanese woodworking.

Woodworkers will be inspired by handsome full-color photographs and all designs are carefully illustrated with color drawings and clear instructions. Best of all, most of these projects can be built successfully using standard hand and power tools.

These lamps and lanterns look handsome in any room. The soft, warm glow of light emerging from behind thin and delicately treated paper stretched in wooden frames, shows character and distinctly Japanese complements many interior design styles. In addition, the lamps beautifully demonstrate traditional Japanese design concepts such as simplicity, asymmetry, and the careful use of negative space. The shapes are spare and simple, feature wooden join and solid legs suggest natural shapes and proportions. The inspiration left by these lights is simple and profoundly elegant, and *Making Japanese Style Lamps & Lanterns* will be a wonderful initiation into the art of Japanese wood-working.
