**The Planning Game** Alex Lord, 2012 Trading information is an essential aspect of the negotiations that underpin planning practice across the globe In this book Alex Lord uses information economics to outline a way of thinking about these negotiations that places the strategies that actors in the planning game use at the heart of the debate Dialogue between economics and planning theorists has been until now rare Lord argues that information economics tool kit game theory including well known examples such as the Prisoners Dilemma the Stag Hunt game and Follow the Leader offers an analytical framework ideally suited to unpacking planning processes This use of game theory to understand how counterparties interact draws together two distinct bodies of literature firstly the mainstream economics treatment of games in abstract form and secondly accounts of actual bargaining in planning practice from a host of international empirical studies Providing a novel alternative to existing theories of planning The Planning Game provides an explanation of how agencies interact in shaping the trajectory of development through the application of game theory to planning practice

**Routledge Handbook of Comparative Political Institutions** Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 The Routledge Handbook of Comparative Political Institutions HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor

market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation The final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London
