Itinerant Philosophy On Alphonso Lingis:

Itinerant Philosophy: On Alphonso Lingis Bobby George, Tom Sparrow, 2014 Alphonso Lingis is the author of fourteen books and many essays He is emeritus professor of philosophy at Pennsylvania State University While many know him only as an eccentric ex professor or as translator of Emmanuel Levinas Maurice Merleau Ponty and Pierre Klossowski he is arguably the most distinctive voice in American continental philosophy This is no doubt due to the perpetual travel that fuels his arresting written prose and unorthodox public readings Lingis s lifelong itinerary includes visits some brief others extended or recurring to 109 countries Along the way he has photographed innumerable strangers whose faces adorn the pages of his books Photography is as essential to Lingis s multidisciplinary philosophical perspective as his knowledge of phenomenology anthropology or psychoanalysis Some of his photographs have been recently collected and published as the book *Contact* Unlike most career academics Lingis has made a name for himself collecting exotic birds and other creatures staging performance readings at professional conferences keeping up a diligent correspondence with friends at home and abroad and splicing together high theory with intimate autobiography Those who know him speak of his warmth sincerity and noncombative style of argumentation rare traits among academics *Itinerant Philosophy On Alphonso Lingis* gathers a diverse collection of texts on Lingis s life and philosophy including poetry original interviews essays book reviews and a photo essay It also includes an unpublished piece by Lingis *Doubles* along with copies of several of his letters to a friend

The Alphonso Lingis Reader Alphonso Lingis, 2018-10-30 A selection of the writings of Alphonso Lingis showcasing a unique blend of travelogue cultural anthropology and philosophy Alphonso Lingis is arguably the most intriguing American philosopher of the past fifty years a scholar of transience someone who has visited and revisited more than one hundred countries and has woven this itinerary into his writing and allowed it to give form to his thinking This book assembles a representative selection of Lingis s work to give readers a thorough sense of his methodology and vision the diversity of his subject matter and the unity of his thought Lingis s writing evinces the many kinds of knowledge and subtle forces circulating through human communities and their environments His unique style blends travel writing cultural anthropology and personal accounts of his innumerable experiences as an active participant in the adventures and relationships that fill his life Drawing from countless articles essays and interviews published over fifty years editor Tom Sparrow chose works that follow Lingis s engaging often intimate

reflections on the body in motion and the myriad influences social cultural aesthetic libidinal physical mythological that shape and animate it as it moves through the world among people and places both foreign and domestic familiar and unknown In a substantial Introduction Sparrow provides a biographical critical intellectual and cultural context for reading and appreciating Alphonso Lingis's work An extended encounter with the singular philosopher The Alphonso Lingis Reader conducts us through Lingis's early writing on phenomenology to his hybrid studies fusing philosophy psychoanalysis anthropology communication theory aesthetics and other disciplines to his original inspired arguments about everything from knowledge to laughter to death

Alphonso Lingis and Existential Genealogy Alexander E. Hooke, 2019-10-25 What is philosophy Is philosophy an academic discipline that produces arguments and theories or is philosophy also about understanding the world through stories metaphors analogies ambience and even through feelings Alphonso Lingis approaches philosophy the way a travel writer approaches a strange new land with his eyes open and with a conscious desire for experience Using the genealogical approach of Nietzsche and Foucault his work continues the phenomenological tradition Alexander E Hooke's Alphonso Lingis and Existential Genealogy is the first book length study of Lingis's philosophical works

Passion in Philosophy Randolph Wheeler, 2016-10-26 Among the first and foremost of American continental philosophers Alphonso Lingis refines his own thought through a topic usually deemed unworthy of philosophical examination passion Lingis criticizes traditional scientific accounts of the emotions as dividing or disrupting our lives and argues for passion as a unifying force a concept which invites philosophical exploration The book's structure is twofold First it offers an examination of Lingis's most recent developments through the topic of passion with essays from some of the most established commentators on the work of Lingis Second it offers a substantial retrospective on Lingis's thought in relation to some of the major figures in continental philosophy namely Levinas Kant Heidegger Butler Foucault and Nietzsche all interweaving the theme of passion Written to celebrate the eightieth anniversary of Lingis's birth these essays show how Lingis's thought has not only endured over so many productive decades but also remains vital and even continues to grow

Irrevocable Alphonso Lingis, 2018-11-13 A lyrical and personal philosophical inquiry into the weight of reality the weight of things and the weight of life itself Drawing from philosophy anthropology psychology religion and science Alphonso Lingis seeks to uncover what in our reality escapes our attempts at measuring and categorizing Writing as much from his own experiences as from his longstanding engagement with phenomenology and existentialism Irrevocable studies the world in which shadows reflections halos and reverberations count as much as the carpentry of things Whether describing religious art and ritual suffering war and disease the pleasures of love the wonders of nature archaeological findings surfing volcanoes or jellyfish Lingis writes with equal measures of rigor and abandon about the vicissitudes of our practices and beliefs Knowing that birth the essential encounters in our lives crippling diseases and accidents and even death are all determined by chance how do we recognize and understand such chance After facing tragedies what makes it possible to live on while recognizing our

irrevocable losses Lingis's investigations are accompanied by his own vivid photographs from around the world Balancing the local and the global and ranging across vast expanses of culture and time Irrevocable sounds the depths of both our passions and our impassioned bodies and minds

Phenomenology for the Twenty-First Century J. Aaron Simmons, J. Edward Hackett, 2016-10-19 This volume illustrates the relevance of phenomenology to a range of contemporary concerns Displaying both the epistemological rigor of classical phenomenology and the empirical analysis of more recent versions its chapters discuss a wide range of issues from justice and value to embodiment and affectivity The authors draw on analytic continental and pragmatic resources to demonstrate how phenomenology is an important resource for questions of personal existence and social life The book concludes by considering how the future of phenomenology relates to contemporary philosophy and related academic fields

The Three Sustainabilities Allan Stoekl, 2021-09-28 Bringing the word sustainability back from the brink of cliché to a substantive truly sustainable future Is sustainability a hopelessly vague word with meager purpose aside from a feel good appeal to the consumer In *The Three Sustainabilities* Allan Stoekl seeks to revalorize the word for a simple reason it is useful Sustainability designates objects in time their birth or genesis their consistency their survival their demise And it raises the question as no other word does of the role of humans in the survival of a world that is quickly disappearing and perhaps in the genesis of another world Stoekl considers a range of possibilities for the word touching upon questions of object ontology psychoanalysis urban critique technocracy and religion He argues that there are three varieties of sustainability seen from philosophical cultural and economic perspectives One involves the self sustaining world without us another the world under our control which can run the political spectrum from corporatism to Marxism to the Green New Deal and a third that carries a social and communitarian charge an energy of the universe affirmed through among other things meditation and gifting Each of these carves out a different space in the relations between objects humans and their survival and degradation Each is necessary unavoidable and intimately bound with and infinitely distant from the others Along the way Stoekl cites a wide range of authors from philosophers to social thinkers literary theorists to criminologists anthropologists to novelists This beautifully written compelling and nuanced book is a must for anyone interested in questions of ecology energy the environmental humanities contemporary theories of the object postmodern and posthuman aesthetics or religion and the sacred in relation to community
