Yearbook of Transnational History Thomas Adam, 2018-05-31. The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history. This inaugural volume provides readers with articles on topics such as soccer, travel, music, and social policy. These articles highlight the movement of ideas, people, policies, and practices across various cultures and societies and explore the relations and connections and spaces created by these movements. These articles make clear that historical phenomena from travel to music cannot be contained and explained within just one national setting. The volume offers further a number of theoretical and methodological articles that provide insights into the concept of transnational history and the approach of intercultural transfer studies. Last but not least, the volume also includes a number of review articles. These review articles provide an examination of books central to teaching transnational history as well as a historiographical exploration of the impact of transnational history on the field of sports history.

A Nation of Immigrants Franca Iacovetta, Paula Draper, Robert Ventresca, 2017-06-22. This collection brings together a wide array of writings on Canadian immigrant history including many highly regarded influential essays. Though most of the chapters have been previously published, the editors have also commissioned original contributions on understudied topics in the field. The readings highlight the social history of immigrants, their pre-migration traditions as well as migration strategies and Canadian experiences, their work and family worlds, and their political, cultural, and community lives. They explore the public display of ethno-religious rituals, race riots, and union protests, the quasi-private worlds of all-male boarding houses and of female domestics toiling in isolated workplaces, and the intrusive power that government and even well-intentioned social reformers have wielded over immigrants deemed dangerous or otherwise in need of supervision. Organized partly chronologically and largely by theme, the topical sections will offer students a glimpse into Canada's complex immigrant past. In order to facilitate classroom discussion, each section contains an introduction that contextualizes the readings and raises some questions for debate. *A Nation of Immigrants* will be useful both in specialized courses in Canadian immigration history and in courses on broader themes in Canadian history.

union local in daily working class experience In Our Union Jason Russell argues that the union local as an institution of working class organization was a key agent for the Canadian working class as it sought to create a new place for itself in the decades following World War II Using UAW CAW Local 27 a broad based union in London Ontario as a case study he offers a ground level look at union membership including some of the social and political agendas that informed union activities As he writes in the introduction This book is as much an outgrowth of years of rank and file union activism as it is the result of academic curiosity Drawing on interviews with former members of UAW CAW Local 27 as well as on archival sources Russell offers a narrative that will speak not only to labour historians but to the people about whom they write **Beyond the City**

Limits R.W. Sandwell,2011-11-01 Historians have not usually identified British Columbia as a rural province B C historiography has been dominated by mining logging and fishing and theorized within the context of large scale laissez faire capitalism and economic individualism Silences in the historical record have exacerbated this situation and lent tacit support to the dominance of resource based capitalism as the shaping force in B C history The essays in Beyond the City Limits all published here for the first time decisively break this silence and challenge traditional readings of B C history In this wide ranging collection R W Sandwell draws together a distinguished group of contributors who bring expertise methodologies and theoretical perspectives taken from social and political history environmental studies cultural geography and anthropology They discuss such diverse topics as Aboriginal White settler relations on Vancouver Island pimping and violence in northern BC and the triumph of the coddling moth over Okanagan orchardists to show that a narrow emphasis on resource extraction capitalist labour relations and urban society is simply not broad enough to adequately describe those who populated the province s history By challenging the dominant urban based and overwhelmingly capitalist interpretation of the province s history the provocative essays in Beyond the City Limits expand our understanding of what rural was and what it meant in the history of British Columbia **Corporate Wasteland** Steven High,David K.
