### **Its Broken Lets Fix It:**

*It's Broken, Let's Fix It* Gerard De Beuckelaer, 2013-04-17 This book takes a hard look at the behavior of the modern enterprise as it evolves in this increasingly complex universe It offers a thoroughly candid analysis of the way things really work taking the perspective of people being both the perpetrators and the victims in the corporate game The objective of this critical analysis is to stimulate thought about the modern enterprise and its interaction with humanity and culture In essence to understand things and find ways to improve them

**Culture Won** Keith Clarke, 2022-08-25 This book is about the company culture that helped drive Arm Limited's spectacular growth to become the world's leading semiconductor Intellectual Property IP company Its extremely power efficient processor technology has been licensed to hundreds of semiconductor chip manufacturers and Original Equipment Manufacturers OEMs Arm is still largely unknown to the broader public yet Arm's technology is nearly ubiquitous and has been a foundational building block of the global rise of the smartphone Arm based microprocessors power over 95% of the world's mobile phones However this book is not about technology It's about how a company grew from being a small start up in Cambridge UK with 12 people and a 1.75m cash investment to a global organization with over 5,000 employees in over 50 countries and more than 1.5bn revenue in 2016 when SoftBank acquired it for 32bn Arm Limited was founded as Advanced RISC Machines in November 1990 a joint venture between a British computer manufacturer Acorn Computers Limited and its much larger US competitor Apple Computers Inc The purpose of the new venture was to develop and proliferate the uniquely power efficient and high performance RISC based microprocessor technology that had been developed several years earlier by Acorn Using first hand interviews with founders and the author's knowledge this book charts some of the key people involved in the birth of the technology and the company Advanced RISC Machines It considers how their behaviors and decisions led to the creation of the licensing business model and the strategy that underpinned Arm's later success This book reveals some of the layers that help explain how the combination of culture strategy and execution built the world's leading semiconductor IP company It provides insight into ten essential ingredients of Arm's success including the company's unique proposition how the early business model and strategy were formed the creation and evolution of the winning culture the ecosystem of shared success and how Arm stayed unified throughout a period of extraordinary growth The purpose of the book is to help readers create a culture of inclusiveness collaboration and innovation within their own organizations The book provides examples from Arm's history which should provide inspiration and guidance for making the necessary changes to enable a winning culture Additional details of interest to history lovers include the stories behind the BBC Microcomputer prototype the Acorn RISC Machine microprocessor development Advanced RISC Machines creation the partnership focused licensing business model's development the nearly lost design win at Nokia for their new GSM mobile the 20 billion selling Cortex M product that almost didn't happen and the battle for smartphones and tablets with Intel

**Who Killed Apollo and Julian Augustus?** Reynold Spector,2006-12-01 Who killed him That is the question Julian Augustus Roman Emperor from 361 363 A D initiated reform of the Roman bureaucracy and state religion immediately on assuming office After dismissing many civil servants he eliminated Christianity as the state religion reversing the policy of his two immediate predecessors Instead Julian proposed that all religions flourish freely In parallel to his reforms Julian attempted to destroy the Persian Empire after centuries of

unsuccessful Roman efforts This novel recounts Julian s reign through the eyes of Oribasius Julian s trusted physician At the climax of Julian s successful campaign in Persia he was assassinated Who killed Julian Was it the same conspirators who silenced Apollo s Oracle at Delphi Was it the Christian hierarchy angry Roman military officers laid off eunuchs humbled Persians disaffected Jews or unemployed Christian educators They were all affected by Julian and had motive means and opportunity

**Special Interest** Terry M. Moe,2011-04-01 Why are America s public schools falling so short of the mark in educating the nation s children Why are they organized in ineffective ways that fly in the face of common sense to the point that it is virtually impossible to get even the worst teachers out of the classroom And why after more than a quarter century of costly education reform have the schools proven so resistant to change and so difficult to improve In this path breaking book Terry M Moe demonstrates that the answers to these questions have a great deal to do with teachers unions which are by far the most powerful forces in American education and use their power to promote their own special interests at the expense of what is best for kids Despite their importance the teachers unions have barely been studied Special Interest fills that gap with an extraordinary analysis that is at once brilliant and kaleidoscopic shedding new light on their historical rise to power the organizational foundations of that power the ways it is exercised in collective bargaining and politics and its vast consequences for American education The bottom line is simple but devastating as long as the teachers unions remain powerful the nation s schools will never be organized to provide kids with the most effective education possible Moe sees light at the end of the tunnel however due to two major transformations One is political the other technological and the combination is destined to weaken the unions considerably in the coming years loosening their special interest grip and opening up a new era in which America s schools can finally be organized in the best interests of children

*The Politics of Institutional Reform* Terry M. Moe,2019-02-21 In this ground breaking analysis Terry M Moe treats Hurricane Katrina as a natural experiment that offers a rare opportunity to learn about the role of power in the politics of institutional reform When Katrina hit it physically destroyed New Orleans school buildings but it also destroyed the vested interest power that had protected the city s abysmal education system from major reform With the constraints of power lifted decision makers who had been incremental problem solvers turned into revolutionaries creating the most innovative school system in the entire country The story of New Orleans path from failure to revolution is fascinating but more importantly it reveals the true role of power whose full effects normally cannot be observed because power has a second face that is hidden and unobservable Making use of Katrina s analytic leverage Moe pulls back the curtain to show that this second face has profound consequences that stifle and undermine society s efforts to fix failing institutions
