J Christmas 2015 M Torres:

Coral Reefs of Australia Sarah M. Hamylton, Pat Hutchings, Ove Hoegh-Guldberg, 2022-11-02 Australia's coral reefs stretch far and wide covering 50 000 square kilometres from the Indian Ocean in the West to the Pacific Ocean in the East. They have been viewed as a bedrock of coastal livelihoods, as uncharted and perilous nautical hazards, as valuable natural resources and as unique natural wonders with secrets waiting to be unlocked. Australia's coral reefs have sustained a global interest as places to visit and as objects of study, science, protection and conservation. *Coral Reefs of Australia* examines our evolving relationship with coral reefs and explores their mystery and the fast pace at which they are now changing. Corals are feeling the dramatic impacts of global climate change, having undergone several devastating mass coral bleaching events, dramatic species range shifts and gradual ocean acidification. This comprehensive and engaging book brings together the diverse views of Indigenous Australians, coral reef scientists, managers and politicians to reveal how we interact with coral reefs, focussing on Indigenous culture, coastal livelihoods, exploration, discovery, scientific research and climate change. It will inform and inspire readers to learn more about these intriguing natural phenomena and how we can protect coral reefs for the future. Cultural sensitivity: Readers are warned that there may be words, descriptions and terms used in this book that are culturally sensitive and which might not normally be used in certain public or community contexts. While this information may not reflect current understanding, it is provided by the author in a historical context. This publication may also contain quotations, terms and annotations that reflect the historical attitude of the original author or that of the period in which the item was written and may be considered inappropriate today. Aboriginal and Torres Strait Islander peoples are advised that this publication may contain the names and images of people who have passed away.

Clinical Paths for Soluble Epoxide Hydrolase Inhibitors John D. Imig, Christophe Morisseau, 2020-12-09 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series; they are collections of at least ten articles all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area. Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

Lung Diseases and Cancer Miguel Angel Martinez-Garcia, Mina Gaga, Kwun M. Fong, 2022-12-01 The coexistence of lung disease and cancer in the same person is a frequent occurrence. Evidence suggests that this coexistence sometimes goes beyond chance; in fact, both disease types are associated and the presence of one can be a risk factor or a protective factor for the other. In this Monograph, the Guest Editors bring together renowned clinical and scientific experts to provide an exhaustive review of the bidirectional relationship between respiratory diseases and cancer, not just lung cancer. The chapters explore the common causal pathways of cancer and lung disease, consider the diseases from an epidemiological, clinical and therapeutic point of view, and discuss

the many ways in which they interact to influence patient management The result is a book that will generate a better understanding of this relationship giving rise to a greater awareness of the possible development of lung disease in people with cancer and of the different types of cancer that are frequently seen in those with lung diseases **Selfie Biometrics**

Ajita Rattani,Reza Derakhshani,Arun Ross,2019-09-21 This book highlights the field of selfie biometrics providing a clear overview and presenting recent advances and challenges It also discusses numerous selfie authentication techniques on mobile devices Biometric authentication using mobile devices is becoming a convenient and important means of verifying identity for secured access and services such as telebanking and electronic transactions In this context face and ocular biometrics in the visible spectrum has gained increased attention from the research community However device mobility and operation in uncontrolled environments mean that facial and ocular images captured with mobile devices exhibit substantial degradation as a result of adverse lighting conditions specular reflections and motion and defocus blur In addition low spatial resolution and the small sensor of front facing mobile cameras further degrade the sample quality reducing the recognition accuracy of face and ocular recognition technology when integrated into smartphones Presenting the state of the art in mobile biometric research and technology and offering an overview of the potential problems in real time integration of biometrics in mobile devices this book is a valuable resource for final year undergraduate students postgraduate students engineers researchers and academics in various fields of computer engineering Neurosurgical Management of

Psychiatric Disorders, Part A ,2022-04-06 Neurosurgical Management of Psychiatric Disorders Part A Volume 266 the latest release in the Progress in Brain Research series highlights new advances in the field with this new volume covering interesting chapters including Pathophysiology and Animal Models of Psychiatric Disorders Neuroimaging of Psychiatric Disorders History of Psychosurgery Ethics of Psychosurgery Medicolegal Aspects and Regulatory Issues of Psychosurgery Psychiatric Mimics of Neurosurgical Disorders Seizures and Pseudoseizures The Great Divide Pitfalls of Psychiatric Patients Selection for Functional Neurosurgery Modern Surgical Strategies for Management of Psychiatric Disorders Neuromodulation for Behavioral Disorders and more Provides the authority and expertise of leading contributors from an international board of authors Presents the latest release in the Progress in Brain Research series Updated release includes the latest information on the Neurosurgical Management of Psychiatric Disorders *Language Variation and Language*

Change Across the Lifespan Karen V. Beaman,Isabelle Buchstaller,2021-03-30 This volume brings together research on panel studies with the aim of providing a coherent empirical and theoretical knowledge base for examining the impact of maturation and lifespan specific effects on linguistic malleability in the post adolescent speaker Building on the work of Wagner and Buchstaller 2018 the present collection offers a critical examination of the theoretical implications of panel research across a range of geographic regions and time periods The volume seeks to offer a way forward in the debates circling about the phenomenon of later life language change drawing on contributions from a variety of linguistic disciplines

to examine critical topics such as the effect of linguistic architecture the roles of mobility and identity construction and the impact of frequency effects Taken together this edited collection both informs and pushes forward key questions on the nature of lifespan change making this key reading for students and researchers in cognitive linguistics historical linguistics dialectology and variationist sociolinguistics
