Localising Salafism Terje Østebø, 2011-09-30 With a particular focus on the role of situated actors this book sheds light on the emergence and expansion of Salafism in Bale Ethiopia from the late 1960s through the Marxist period 1974 1991 before discussing the rapid expansion and fragmentation of the movement in the 1990s until 2006 **Salafism in Nigeria**

Alexander Thurston, 2016-09-22 The spectre of Boko Haram and its activities in Nigeria dominates both media and academic analysis of Islam in the region But as Alexander Thurston argues here beyond the sensational headlines this group generates the dynamics of Muslim life in northern Nigeria remain poorly understood Drawing on interviews with leading Salafis in Nigeria as well as on a rereading of the history of the global Salafi movement this volume explores how a canon of classical and contemporary texts defines Salafism Examining how these texts are interpreted and crucially who it is that has the authority to do so Thurston offers a systematic analysis of curricula taught in Saudi Arabia and how they shape religious scholars approach to religion and education once they return to Africa Essential for scholars of religion and politics this unique text explores how the canon of Salafism has been used and refined from Nigeria's return to democracy to the jihadist movement Boko Haram **Understanding Salafism** Yasir Qadhi, 2025-06-12 The Salafi movement invokes fear and dread in outsiders who treat Salafism as synonymous with religious extremism For Salafis themselves it's a jealously guarded title always in danger of dilution Salafism has changed the face of Islam its ideas reach far outside its own ranks Yet popular portrayals never go beyond hackneyed stereotypes In *Understanding Salafism* Dr Yasir Qadhi delves into the origins of the movement from the earliest debates in Islam to Salafism today in both the Western and Islamic worlds In an analysis covering Salafism in the Middle East Europe the United States and Africa he illuminates Salafism's theological ideas the debates within Salafism about political participation and its relationship to other schools in Sunni Islam Table of Contents List of Figures Preface Conventions 1 Introduction A Bird's Eye View of Salafism 2 A Comprehensive History of Salafi Thought From its Origins to Modernity 3 Wahhabism and Salafism 4 Salafism and Islamism A Case Study of the Muslim Brotherhood 5 The Phenomenon of Jihadi Salafism 6 Global Salafism in the Contemporary World Epilogue Notes Bibliography Index **Salafism in Lebanon** Zoltan Pall, 2018-04-05 Examines the entrenchment of Salafism in Lebanese society while also highlighting the movement's transnational links to the Persian Gulf **Routledge Handbook of Non-Violent Extremism** Elisa Orofino, William Allchorn, 2023-03-09 This Handbook provides the first in depth analysis of non violent extremism across different ideologies and geographic centres a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North Whilst acknowledging the potentiality of non violent extremism as a precursor to terrorism this Handbook argues that non violent extremism ought to be considered a stand alone area of study Focusing on Islamist Buddhist Hindu far right far left environmentalist and feminist manifestations the Handbook discusses the ideological foundation of their war on ideas against the prevailing socio political and cultural systems in which they

operate and provides an empirical examination of their main claims and perspectives This is supplemented by a truly global overview of non violent extremist groups not only in Europe and the United States but also in Africa Asia Oceania and the Middle East The Handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South The Handbook will appeal to those studying extremism radicalisation and terrorism It intersects several relevant disciplines including social movement studies political science criminology Islamic studies and anthropology

**Wahhabism and the World** Peter G. Mandaville, 2022 For more than half a century Saudi Arabia through both official and non governmental channels has poured billions of dollars into funding and sponsoring religious activities and Islamic causes around the world The effect has been to propagate Wahhabism the distinctively rigid and austere form of Islam associated with the Kingdom's religious establishment within Muslim communities on almost every continent This volume features essays by leading scholars who explore the origins and evolution of Saudi religious transnationalism assess ongoing debates about the impact of these influences in various regions and localities around the world and discuss possible future trends in light of new Saudi leadership In addition to chapters devoted to the major actors and institutions involved in Saudi global religious propagation the volume contains a wide range of country case studies that offer in depth analysis of the nature and impact of Saudi religious influence in nations across multiple world regions *Shaping Global Islamic Discourses* Masooda Bano, 2015-03-20 Explores the influence of centres of Islamic learning using 3 case studies Al Azhar University in Egypt International Islamic University of Medina in Saudi Arabia and Al Mustafa University in Iran

*Routledge Handbook of Islamic Ritual and Practice* Oliver Leaman, 2022-06-08 Ritual and practice are one of the most distinctive features of religion and they are linked with its central beliefs Islam is no exception here and this Handbook covers many aspects of those beliefs and practices It describes the variety of what takes place but mainly why and what the implications of both the theory and practice have for our understanding of Islam The book includes accounts of prayer food pilgrimage mosques and the various legal and doctrinal schools that exist within Islam with the focus on how they influence practice The volume is organized in terms of texts groups practices places and others An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today *Circuits of Faith* Michael Farquhar, 2016-11-16 The Islamic University of Medina was established by the Saudi state in 1961 to provide religious instruction primarily to foreign students Students would come to Medina for religious education and were then expected to act as missionaries promoting an understanding of Islam in line with the core tenets of Wahhabism By the early 2000s more than 11 000 young men from across the globe had graduated from the Islamic University *Circuits of Faith* offers the first examination of the Islamic University and considers the efforts undertaken by Saudi actors and institutions to exert religious influence far beyond the kingdom's borders Michael

Farquhar draws on Arabic sources including biographical materials memoirs syllabi and back issues of the Islamic University journal as well as interviews with former staff and students to explore the institution's history and faculty the content and style of instruction and the trajectories and experiences of its students Countering typical assumptions Farquhar argues that the project undertaken through the Islamic University amounts to something more complex than just the one way export of Wahhabism Through transnational networks of students and faculty this Saudi state funded religious mission also relies upon and has in turn been influenced by far reaching circulations of persons and ideas

*Reconfiguring Ethiopia: The Politics of Authoritarian Reform* Jon Abbink, Tobias Hagmann, 2016-04-22 This book takes stock of political reform in Ethiopia and the transformation of Ethiopian society since the adoption of multi party politics and ethnic federalism in 1991 Decentralization attempted democratization via ethno national representation and partial economic liberalization have reconfigured Ethiopian society and state in the past two decades Yet as the contributors to this volume demonstrate democracy in Ethiopia has not changed the authority structures and the culture of centralist decision making of the past The political system is tightly engineered and controlled from top to bottom by the ruling Ethiopian Peoples

Revolutionary Democratic Front EPRDF Navigating between its 1991 announcements to democratise the country and its aversion to power sharing the EPRDF has established a de facto one party state that enjoys considerable international support This ruling party has embarked upon a technocratic developmental state trajectory ostensibly aimed at depoliticizing national policy and delegitimizing alternative courses The contributors analyze the dynamics of authoritarian state building political ethnicity electoral politics and state society relations that have marked the Ethiopian polity since the downfall of the socialist Derg regime Chapters on ethnic federalism revolutionary democracy opposition parties the press the judiciary state religion and state foreign donor relations provide the most comprehensive and thought provoking review of contemporary Ethiopian national politics to date This book is based on a special issue of the Journal of Eastern African Studies

Making Citizens in Africa Lahra Smith,2013-05-20 Smith argues that citizenship creation and expansion is a pivotal part of political contestation in Africa today Citizenship is a powerful analytical tool to approach political life in contemporary Africa because the institutional and structural reforms of the past two decades have been inextricably linked with the battle over the right to have rights Professor Lahra Smith s work advances the notion of meaningful citizenship referring to the ways in which rights are exercised or the effective practice of citizenship Using data from Ethiopia and developing a historically informed study of language policy ethnicity and gender identities Smith analyzes the contestation over citizenship that engages the state social movements and individuals in substantive ways By combining original data on language policy in contemporary Ethiopia with detailed historical study and a focus on ethnicity citizenship and gender this work brings a fresh approach to Ethiopian political development and contemporary citizenship concerns across Africa *Negotiating Memory from the Romans to the Twenty-First Century* Øivind Fuglerud,Kjersti Larsen,Marina Prusac-Lindhagen,2020-09-14 Manipulation of the past and forced erasure of memories have been global phenomena throughout history spanning a varied

repertoire from the destruction or alteration of architecture sites and images to the banning or imposing of old and new practices The present volume addresses these questions comparatively across time and geography and combines a material approach to the study of memory with cross disciplinary empirical explorations of historical and contemporary cases This approach positions the volume as a reference point within several fields of humanities and social sciences The collection brings together scholars from different fields within humanities and social science to engage with memorialization and damnatio memoriae across disciplines using examples from their own research The broad chronological and comparative scope makes the volume relevant for researchers and students of several historical periods and geographic regions
