Lola Dave Friedman, 1998 Lola race cars built by Eric Broadley were among the most successful sport racers of the 1960s and early 1970s Originally hired by Ford to design its GT40 Broadley went on to design a series of successful Can Am cars as well as coupes for endurance events like Le Mans Sebring and Daytona Lolas from this period were driven by a veritable who's who of motorsports including John Surtees David Hobbs Graham Hill Mark Donohue and Jo Bonnier to name a few This photohistory focuses on Broadley's Lolas from the first Mark VI coupe in 1963 through 1974 the last year Lola campaigned the Can Am series Thirty seven individuals were interviewed for the book resulting in a host of remembrances from drivers mechanics and team owners

Inside IMSA's Legendary GTP Race Cars J. A. Martin, Michael J. Fuller, Professional automobile racing has always been dominated by sanctioning bodies whose main goal was to ensure competition That has meant seeing that cars are well matched in body shape or chassis engine combinations or engine size But what about an all out competition in which one team's idea of the fastest race car could be pitted against another's regardless of mechanical parity This was what the International Motor Sports Association's IMSA Grand Touring Prototypes GTP race series was about The Series ran from 1981 to 1993 and it was one of the most exhilarating racing experiences of all time This book is the first to profile the amazing machines that resulted from the GTP's flat out competition among different and passionate ideas about what might be the fastest way around a track the V 12 with its better ground effect tunnels but higher center of gravity CG the flat six with its low CG but severely restricted ground effect tunnels and others that employed elaborate wings and air dams Here

are the people behind this engineering free for all the culmination of almost a century of automobile racing experience And here are eighteen of the most competitive vehicles they designed Using photography diagrams drawings and first person accounts from the men who built them Inside IMSA s Legendary GTP Race Cars offers a detailed look at the technology that drove some of the world s most exciting race cars the likes of which may never be seen again **Trans-Am Challengers** Steve Holmes,2025-09-30 Trans Am Challengers The Story Behind Detroit s Racing Revolution In April 1964 Ford s Mustang pony car stormed onto the scene igniting a sales phenomenon that forced Detroit s other automakers to scramble to create their own competitors Around the same time the Sports Car Club of America SCCA was transforming from a purely amateur organisation into a professional racing powerhouse introducing prize money championships By 1966 the SCCA launched two landmark series the Canadian American Challenge Cup Can Am and the Trans American Sedan Championship Trans Am While Can Am focused on unlimited FIA Group 7 sports cars Trans Am catered to FIA Group 2 touring cars with classes divided by engine sizes up to 2000cc and 2001 5000cc The Over 2000cc class was crafted specifically with the Mustang in mind ensuring Ford s interest and leveraging the growing pony car wars Chevrolet answered Ford s Mustang with the launch of the Camaro in September 1966 sparking fierce competition on the track and in showrooms Soon Mercury Pontiac Dodge Plymouth and AMC joined the fray turning the Trans Am series into a battleground for Detroit s Big Four Manufacturers saw Trans Am success as a path to dominance investing heavily in developing race ready cars and unleashing low production homologation specials like the Mustang Boss 302 Camaro Z28 Pontiac Firebird Trans Am AMC Javelin Mark Donohue Edition Dodge Challenger T A and Plymouth Cuda AAR now some of the rarest and most valuable classic American cars Beyond the famous Mustang and Camaro rivalry this book uncovers the untold stories of their challengers and the relentless pursuit of sales glory Mercury nearly claimed the championship in 1967 and AMC triumphed in 1971 and 1972 with Penske Racing The fierce competition left an indelible mark on American motorsport history A chapter also explores lesser known contenders from outside the U S such as Ford Falcon Sprints in the British Saloon Car Championship and the powerful Holden Monaros and Ford Falcons that dominated Australian circuits This is more than just a tale of Mustang versus Camaro it s the story of an era when Detroit s finest fought to conquer the track and the showroom floor leaving a legacy of engineering brilliance and motorsport passion Can-Am 50th Anniversary George Levy,2016-10-31 Phototgraphs accompany allok at the history of the Canadian American Challenge Cup from 1966 to 1974 *Car and Driver* ,1986 *Kar-Kraft* Charlie Henry,2017-06-15 The story of Kar Kraft began as did many others in the automotive industry with an axe to grind In 1963 Ford was seriously interested in purchasing Ferrari Ferrari was a legendary brand with considerable success in racing and Ford saw the acquisition as a great way to be instantly successful in the racing arena When Enzo Ferrari realized that Ford would not give him complete control of the racing program he backed out of the deal late in the process Ford had spent millions in vetting and audits which then set in motion a vengeful response against Ferrari The result was the unthinkable

Ford beat Ferrari at Le Mans Ford wanted to become competitive quickly but it did not have the race history or resources in house To remedy the situation Ford searched the U K for an independent company to help accelerate its race car development It first settled on Lola Cars and set up Ford Advanced Vehicles Later Ford brought its LeMans effort to the U S and the Kar Kraft relationship was established Although Kar Kraft was technically an independent company it really only had one customer Ford Special Vehicles Kar Kraft s story doesn t begin and end with the GT 40 that took the win away from Ferrari at Le Mans Ford expanded upon the program and organized an all out assault on racing in general Cars were prepared for Trans Am NASCAR NHRA and Can Am competition Street versions of the Boss 429 were assembled under its roof And fabled prototypes including the LID Mustang Boss 302 Maverick and Mach 2C were all assembled in Ford s contracted race shop And then out of the blue its doors closed for good on a cold day in 1970 History tells us that Ford won Le Mans the Daytona 500 and the Trans Am championship But it doesn t tell us how this was accomplished Author Charlie Henry a former Kar Kraft employee has enlisted the help of many of his former co workers to bring you the very first book ever published on Ford s all encompassing special projects facility Kar Kraft
