Did You Know? In 1884 the Circle Line opened and was described in The Times as a form of mild torture which no person would undergo if he could conveniently help it. According to one psychologist Tube commuters can experience greater levels of stress than a police officer facing a rioting mob or even a fighter pilot going into a dogfight. Underground trains have only twice been used to transport deceased people in coffins: William Gladstone and Dr Barnardo. Some of the most bizarre items handed in to lost property include 250lb of sultanas, a 14ft canoe, a child's garden slide, a harpoon gun, a pith helmet, an artificial leg, someone's brother's ashes and a sealed box containing three dead bats. WITH well over a billion passengers a year, more than 250 miles of track, literally hundreds of different stations and a history stretching back at least 160 years, the world's oldest underground railway might seem familiar, but how well do you actually know it? This book offers a feast of Tube based trivia for travellers and lovers of London alike. **London Underground Train Formation Diagrams**, 2002. The London Underground Oliver Green, 1987. Electrifying the Underground Graeme Gleaves, 2014-02-15. The arrival of electric traction transformed London's fledgling underground system from a limited number of sub-surface lines into the network of deep level tunnels we know today. **Baker Street and Waterloo Railway** Underground Electric Railways Company of London, 1906.
