Exploring the Use and Impact of Travel Guidebooks Victoria Peel, Anders Sørensen, 2016-02-04 This volume provides the first comprehensive examination of travel guidebooks and their conceptualisation use and impact Guidebooks have been key tourism paraphernalia for almost two centuries and although researched in some areas academic knowledge on guidebooks in tourism has not been expansively communicated The uncritical unreflective and largely pejorative approach to guidebooks in the public sphere and to some degree also present in academia is reassessed in this book This challenges the current limited tourism research approaches to the topic including the routinely held assumption that the internet has all but destroyed the printed guidebook This book will be a useful resource for postgraduate students and researchers in tourism and tourism communications and consumption

Tourist's Experience of Place Jaakko Suvantola, 2018-02-06 This title was first published in 2002 This volume follows on from the tradition of humanistic geography to examine tourism from an experiential perspective examining the experience of the tourists themselves By analyzing theories on tourism from anthropology psychology and cultural tourism it aims to further the geographical debates on interactions which occur in tourism The text offers a geographical approach which examines how the resulting experience of tourism can reveal something of our relationship with places in general and also about ourselves
