The SAGE Encyclopedia of Terrorism, Second Edition Gus Martin, 2011-06-15 This thoroughly updated edition with expanded coverage explores the impact of terrorism on economics public health religion and pop culture and also includes details of ethical issues and debates relating to terrorism [Irish Orientalism](#) Joseph Lennon, 2008-08-04 Centuries before W B Yeats wove Indian Japanese and Irish forms together in his poetry and plays Irish writers found kinships in Asian and West Asian cultures This book maps the unacknowledged discourse of Irish Orientalism within Ireland's complex colonial heritage

Elizabeth's Irish Wars Cyril Falls, 1997 The reign of Elizabeth I will always be remembered for the Armada But it was the Irish not the Spanish who came closest to destroying the security of the Elizabethan state Between 1560 and 1602 only superior military force allied with ruthless subjugation preserved England's throne against a succession of rebellions and uprisings throughout Ireland This classic work by renowned military historian Cyril Falls is the crucial account of the half century that changed the course of Anglo Irish history The Elizabethan wars in Ireland involved the collision of two civilizations Falls's critical work gives a vital perspective to the broad sweep of Anglo Irish relations **The Intelligence**

War against the IRA Thomas Leahy, 2020-03-26 The exposure of two senior republicans as informers for British intelligence in 2005 led to a popular perception that the IRA had lost the intelligence war and was pressurised into peace In this first in depth study across the entire conflict Thomas Leahy re evaluates the successes and failures of Britain's intelligence activities against the IRA from the use of agents and informers to special forces surveillance and electronic intelligence Using new interview material alongside memoirs and Irish and UK archival materials he suggests that the IRA was not forced into peace by British intelligence His work sheds new light on key questions in intelligence and security studies How does British intelligence operate against paramilitaries Is it effective When should governments talk to terrorists And does regional variation explain the outcome of intelligence conflicts This is a major contribution to the history of the conflict and of why peace emerged in Northern Ireland **Two Irelands** Rebecca Pelan, 2005-06-27 The very different histories of the North and South are reflected in their literature While women in the Republic of Ireland have tended to write about social issuessexism crime unemployment and domestic violencewomen in Northern Ireland focused on their society's historical tension and primarily nationalist and unionist politics However Pelan maintains that feminist ideology has provided contemporary Irish women with an alternate political stance that incorporates gender and nationality ethnicity and allows them to move beyond the usual binaries of politics history and languageIrish and English In an analysis enriched by a sophisticated but accessible engagement with contemporary feminist and gender theory Pelan concludes that Irish women's writing whether at the community or mainstream levelNorth or Southconsistently articulates political issues of direct relevance to the lives of Irish women today As a result such work retains close links with the initial impetus of the second wave of feminism as a political movement and questions the legitimacy of long standing social religious and political

conventions From within the framework provided by this second wave argues Pelan Irish women can critique certain masculine ideologies nationalist unionist imperialist and capitalist without forfeiting their own sense of gender and national or ethnic identity The book's significance lies in its placement of women's writing in the center of contemporary political discourse in Ireland and in ensuring that the writing from this period much of it long out of print continues to exist as sociological as well as literary records It will be of interest to a general and scholarly audience especially those in the fields of contemporary Irish writing feminism and literary history

The Long March M. Frampton, 2016-04-30 Sinn Féin has undergone a startling transformation in the last two and a half decades Under the leadership of its two principal figures Gerry Adams and Martin McGuinness the mainstream party of Irish republicanism has changed beyond almost all recognition It has moved from the margins of political life on both sides of the Irish border to a position where it occupies the Deputy First Minister's chair in Northern Ireland and was viewed until recently as the coming force in southern Irish politics In this book the contours of Sinn Féin's recent evolution are considered with particular emphasis on the various strategic objectives that the party has set itself Sinn Féin's attitude to the Northern Irish peace process is considered at length here and the book challenges the conventional wisdom that would juxtapose republican politics and republican war the notion being that during the 1990s republicans exchanged the latter for the former and were therefore tamed into becoming a normal political party The central argument here is that such a view rests on a false dichotomy It has been said that war is merely the continuation of politics with respect to Sinn Féin it is argued the inverse formulation needs also to be considered with republican politics seen by republicans themselves as an extension of the war In following through this line of argument this book attempts to consider republicans on their own terms to take their thoughts and words seriously and to examine their recent history accordingly

Discourse, Media, and Conflict Innocent Chiluba, 2022-04-28 Bringing together contributions from a team of international scholars this pioneering book applies theories and approaches from linguistics such as discourse analysis and pragmatics to analyse the media and online political discourses of both conflict and peace processes By analysing case studies as globally diverse as Germany the USA Nigeria Iraq Korea and Libya and across a range of genres such as TV news channels online reporting and traditional newspapers the chapters collectively show how news discourse can be powerful in mobilizing public support for war or violence or for conflict resolution through the linguistic representation of certain groups It explores the consequences of this framing effect and shows how peace journalism can be achieved through a non violent approach to reporting conflict It will therefore serve as an essential resource for students scholars and experts in media and communication studies conflict and peace studies international relations linguistics and political science

IRA, The Bombs and the Bullets A. R. Oppenheimer, 2008-10-16 In this groundbreaking title A R Oppenheimer tells how the Irish Republican Army became the most adept and experienced insurgency group the world has ever seen through their bombing expertise and how after generations of conflict it all came to an end The book is a comprehensive account of more than 150 years of

Long Kesh Detention Centre HM Prison Maze closed Dieter Reinisch outlines the role of politically motivated prisoners in ending armed conflicts as well as the personal and political development of these radical activists during their imprisonment Based on extensive life story interviews with Irish Republican Army IRA ex prisoners the book examines how political prisoners developed their intellectual positions through the interplay of political education and resistance It sheds light on how prisoners used this experience to initiate the debates that eventually led to acceptance of the peace process in Northern Ireland Politically relevant and instructive Learning behind Bars illuminates the value of education politics and resistance in the harshest of social environments **Pirates, Terrorists, and Warlords** Jeffrey H. Norwitz, 2009-07 A serious look at the enemies we face in the twenty first Taking Shergar Milton C.
