as a result The UK Government does not accept this estimate but does not deny that there will be some cost to developing countries The Committee recommends that subject to the outcome of its own analysis the Government should consider reversing the change as a matter of urgency The Committee also received evidence which argued that the Government should require UK owned companies to report their financial information on a country by country basis rather than on an aggregate basis The Government is reluctant to act unless other EU countries do likewise but the Committee believes that it should act unilaterally *Official Reports of the Debates of the House of Commons of the Dominion of Canada* Canada.
