100 Suns Michael Light, 2013-04-03 Between July 1945 and November 1962 the United States is known to have conducted 216 atmospheric and underwater nuclear tests After the Limited Test Ban Treaty between the United States and the Soviet Union in 1963 nuclear testing went underground It became literally invisible but more frequent the United States conducted a further 723 underground tests the last in 1992 100 Suns documents the era of visible nuclear testing the atmospheric era with one hundred photographs drawn by Michael Light from the archives at Los Alamos National Laboratory and the U S National Archives in Maryland It includes previously classified material from the clandestine Lookout Mountain Air Force Station based in Hollywood whose film directors cameramen and still photographers were sworn to secrecy The title 100 Suns refers to the response by J Robert Oppenheimer to the world's first nuclear explosion in New Mexico when he quoted a passage from the Bhagavad Gita the classic Vedic text If the radiance of a thousand suns were to burst forth at once in the sky that would be like the splendor of the Mighty One I am become Death the destroyer of worlds This was Oppenheimer's attempt to describe the otherwise indescribable 100 Suns likewise confronts the indescribable by presenting without embellishment the stark evidence of the tests at the moment of detonation Since the tests were conducted either in Nevada or the Pacific the book is simply divided between the desert and the ocean Each photograph is presented with the name of the test its explosive yield in kilotons or megatons the date and the location The enormity of the events recorded is contrasted with the understated neutrality of bare data Interspersed within the sequence of explosions are pictures of the awestruck witnesses The evidence of these photographs is terrifying in its implication while at same time profoundly disconcerting as a spectacle The visual grandeur of such imagery is balanced by the chilling facts provided at the end of the book in the detailed captions a chronology of the development of nuclear weaponry and an extensive bibliography A dramatic sequel to Michael Light's Full Moon 100 Suns forms an unprecedented historical document

Souvenirs of the Old South Rebecca C. McIntyre, 2016-10-05 Written in a clear accessible and lively style Souvenirs of the Old South will be the foundational work for subsequent scholars and readers interested in tourism in the New South W Fitzhugh Brundage author of The Southern Past A Clash of Race and Memory This study of southern images offers readers a glimpse of how history culture race and class came together in the tourist imagination If the South emerged from the Civil War a distinctive place Rebecca McIntyre would remind us that's because distinctiveness sells Richard Starnes author of Creating the Land of the Sky Tourism and

Society in Western North Carolina Less than a decade after the conclusion of the Civil War northern promoters began pushing images of a mythic South to boost tourism By creating a hierarchical relationship based on region and race in which northerners were always superior promoters saw tourist dollars begin flowing southward but this cultural construction was damaging to southerners particularly African Americans Rebecca McIntyre focuses on the years between 1870 and 1920 a period framed by the war and the growth of automobile tourism These years were critical in the creation of the South s modern identity and she reveals that tourism images created by northerners for northerners had as much effect on making the South southern as did the most ardent proponents of the Lost Cause She also demonstrates how northern tourism contributed to the worsening of race relations in the late nineteenth and early twentieth centuries Photography and the American Civil War Jeff Rosenheim, Metropolitan Museum of Art (New York, N.Y.), Gibbes Museum of Art (Charleston, S.C.), New Orleans Museum of Art, 2013 Published to coincide with the 150th anniversary of the battle of Gettysburg features both familiar and rarely seen Civil War images from such photographers as George Barnard Mathew Brady and Timothy O Sullivan *American Avant-garde Cinema's Philosophy of the In-between* Rebecca Sheehan, 2020 Can films philosophize rather than simply represent philosophical ideas developed outside of the cinematic medium Taking up this crucial question for the emergent field of film philosophy *American Avant Garde Cinema s Philosophy of the In Between* argues that the films of the American avant garde do in fact do philosophy and illuminates the ethical stakes of their aesthetic interventions Author Rebecca A Sheehan contends that American avant garde cinema s characteristic self reflexivity is an interrogation of the modes and stakes of our engagement with the world on and beyond the screen The book demonstrates this with the theory of the in between a pervasive figure that helps clarify how avant garde cinema s reflections on the creation of images construct an ethics of perception itself a responsibility to perpetuate thought in an enduring re encounter with the world and with meaning s unfinished production The book is structured by a taxonomy of the multiple in betweens evident in American avant garde filmmaking Rather than systematically seeking reproductions of particular philosophers ideas in avant garde films Sheehan derives categories of analysis and the philosophical claims they disclose from close readings of the films themselves This methodology opposes mapping preconfigured philosophical concepts and values onto these films as too many philosophical approaches to cinema have done silencing the philosophies uniquely articulated by these films in the interest of making them ventriloquize philosophies advanced elsewhere The chapters of this book trace three modes of the in between that function philosophically in American avant garde cinema the material the dimensional and the conceptual Although the chapters are organized around discrete aesthetic and philosophical preoccupations that unify several filmmakers these three presentations of the in between cut through all the chapters allowing the subjects of each to converse over the course of the book **American Forests and Forest Life** ,1923 The Agricultural Student ,1921 **Cinema's Military Industrial Complex** Haidee Wasson, Lee Grieveson, 2018-01-23 The vast and vastly influential American military machine has been

aided and abetted by cinema since the earliest days of the medium The US military realized very quickly that film could be used in myriad ways training testing surveying and mapping surveillance medical and psychological management of soldiers and of course propaganda Bringing together a collection of new essays based on archival research Wasson and Grieveson seek to cover the complex history of how the military deployed cinema for varied purposes across the the long twentieth century from the incipient wars of US imperialism in the late nineteenth century to the ongoing War on Terror This engagement includes cinema created and used by and for the military itself such as training films the codevelopment of technologies chemical mechanical and digital and the use of film and related mass media as a key aspect of American soft power at home and around the world A rich and timely set of essays this volume will become a go to for scholars interested in all aspects of how the military creates and uses moving image media **National Library of Medicine Audiovisuals Catalog** National Library of Medicine (U.S.),1992 *Inland Printer, American Lithographer* ,1906 **HSA Heritage Auctions Arms, Militaria and Civil War Auction Catalog #6050, Dallas, TX** Marsha Dixey,2010-11
