

SINGLE THREAD DARTS

Darts provide fit, contour, styling, and interest to a garment. They are generally stitched on the inside of a garment, but frequently appear as styling interests or details on the right side. Whether darts are made on the inside or outside of the garment, the problem of fastening thread ends at the point of the dart can be eliminated when the single thread principle is employed.

Thread the machine and set stitch controls for straight stitching in center needle position. Insert an empty reel in reel holder of machine and wind enough thread to complete a single dart (usually, less than one yard). Release reel wind push button to "SEW" after winding.

Lower the needle into the very edge of the fold at the point of the basted or pinned dart. Lower the presser foot and stitch carefully toward the seam edge.

This method is ideally applicable for darts on sheer fabrics where transparency requires a neat, clean finish.

DARTS IN INTERFACING

Non-woven interfacings can be shaped without bulk by means of zigzag stitching (Fashion Disc ⑥).

The multi-stitch zigzag (Fashion Disc ⑨) may also be used.

Cut out the dart allowance on the stitching line and bring the raw edges together. Pin, over a muslin stay, and stitch. Back stitch at both ends.

BLANKET BINDING

The multi-stitch zigzag (Fashion Disc ⑨) is an excellent stitch for applying blanket binding and affords both a decorative and durable finish. Remove worn binding. Baste new binding securely in place and stitch. Adjust pressure, if necessary, to accommodate the thickness of the blanket.

Looms Insruction Manual
