Making A Difference Teacher Poem:

Making a Difference in Education Robert Cassen, Sandra McNally, Anna Vignoles, 2015-04-24 What is working in education in the UK and what isn't This book offers a highly readable guide to what the latest research says about improving young people's outcomes in pre school primary and secondary education Never has this issue been more topical as the UK attempts to compete in the global economy against countries with increasingly educated and skilled work forces The book discusses whether education policy has really been guided by the evidence and explores why the failings of Britain's educational system have been so resistant to change as well as the success stories that have emerged Making a Difference in Education looks at schooling from early years to age 16 and entry into Further Education with a special focus on literacy numeracy and IT Reviewing a large body of research and paying particular attention to findings which are strong enough to guide policy the authors examine teacher performance school quality and accountability and the problematically large social gap that still exists in state school education today Each chapter concludes with a summary of key findings and key policy requirements As a comprehensive research review Making a Difference in Education should be essential reading for faculty and students in education and social policy and of great interest to teachers and indeed to anyone who wants to know about the effectiveness of UK education policy and practice and where they should be going

Writing to Make a Difference
