Maintaining Safe Mobility In An Aging Society Human Factors In Transportation:

Maintaining Safe Mobility in an Aging Society David W. Eby, Lisa J. Molnar, Paula S. Kartje, 2008-12-22 By 2030 20 percent of the world's drivers 60 million in all will be over the age of 65. Consequently, safe and efficient mobility for older adults is a complex and pressing issue. *Maintaining Safe Mobility in an Aging Society* addresses the complexities surrounding the booming number of aging drivers and practical solutions for sustaining safe travel. **Handbook of Aviation Human Factors** John A. Wise, V. David Hopkin, Daniel J. Garland, 2016-04-19 A complete examination of issues and concepts relating to human factors in simulation, this book covers theory and application in space ships, submarines, naval aviation, and commercial aviation. The authors examine issues of simulation and their effect on the validity and functionality of simulators as a training device. The chapters contain information on:
Perspectives and Strategies for Promoting Safe Transportation Among Older Adults David W. Eby, Lisa J. Molnar, Renée M. St. Louis, 2018-11-27 Promoting Safe Transportation among Older Adults: Perspectives and Strategies provides a concise, comprehensive, and up-to-date resource on safe mobility for an aging population. The book offers an interdisciplinary perspective for understanding and influencing the behavior of older adults with regard to their safe transportation. It is organized around the professions and disciplines that have a stake in the safe transportation of older adults and the role they play at each stage of their mobility needs. The book also addresses the various strategies that have been used to help keep older adults safe and mobile. Readers will find great insights on key issues related to aging and mobility, giving them an overarching framework for how to maintain safe mobility into older adulthood. The book enables readers to understand the perspectives of the critical groups of people involved in keeping older people safe and explores existing strategies by which an aging individual can maintain safe mobility. Utilizes a multidisciplinary, evidence-based approach for examining the complexities of transportation for older adults. Offers an integrated, overarching narrative for understanding the key issues of safety and mobility in our aging society. Written by leading transportation and health scholars. Offers insights into the perspectives of all the stakeholders, such as hands-on transportation and health practitioners, students of varying levels, researchers, and policymakers.
Traffic Safety and Human Behavior David Shinar, 2017-06-22 This comprehensive 2nd edition covers the key issues that relate human behavior to traffic safety. In particular, it covers the increasing roles that pedestrians and cyclists have in the traffic system, the role of infotainment in driver distraction, and the increasing role of driver assistance systems in changing the driver-vehicle interaction.
Transportation in an Aging Society, 2004
The Handbook of Human-Machine Interaction Guy A. Boy, 2017-11-01 The Handbook of Human-Machine Interaction features 20 original chapters and a conclusion focusing on human-machine interaction (HMI) from analysis, design, and evaluation perspectives. It offers a comprehensive range of principles, methods, techniques, and tools to provide the reader with a clear knowledge of the current academic and industry practice and debate that define the field. The text considers physical, cognitive, social, and emotional aspects and is illustrated by key application domains such as aerospace.

automotive medicine and defence Above all this volume is designed as a research guide that will both inform readers on the basics of human machine interaction from academic and industrial perspectives and also provide a view ahead at the means through which human centered designers including engineers and human factors specialists will attempt to design and develop human machine systems
