The Three Stages in the Formation of Judaism Jacob Neusner, 1985 **The Documentary History of Judaism and Its Recent Interpreters** Jacob Neusner, 2010 critic of the documentary hypothesis Book Jacket *The Three Questions of Formative Judaism* Jacob Neusner, 2002-01-01 Bringing nearly fifty years of research to bear on these fundamental questions Jacob Neusner challenges his readers to face the difficult often unasked or neglected questions about the nature background and purposes of Rabbinic Judaism and rewards them with an enriched understanding and a stronger foundation for tackling the even more elusive questions concerning the theology of formative Judaism BOOK JACKET **The Midrash** Jacob Neusner, 1994-10-01 The Midrash An Introduction sets forth the way in which Judaism reads the Hebrew Bible In this masterful presentation the reader is introduced to the classics of Jewish Bible interpretation with special attention to the way in which the rabbis of Talmudic times read the Pentateuch the Book of Ruth and Song of Songs The seven Midrash compilations are introduced with a lucid account of their main points accompanied by selections that give the reader a direct encounter in English with the Bible as Judaism understands it The word midrash based on the Hebrew root DaRaSH search means interpretation or exegesis Midrash also more formally refers to the compilations of such interpretations of Scripture As Dr Jacob Neusner explains these compilations reached closure and conclusion in the formative stage of Judaism that is the first seven centuries of the Common Era the time in which the Mishnah ca 200 Talmud of the Land of Israel ca 400 and Talmud of Babylonia ca 600 were written Midrash is not so much about Scripture as it is a subordinate part of Scripture They did not write about Scripture Dr Neusner says They wrote with Scripture much as painters paint with a palette of colors The Midrash An Introduction is the second volume in Dr Jacob Neusner's series of introductory volumes on classical rabbinic literature As with the first volume The Mishnah An Introduction this book offers the layperson a concise description of the religious literature and drawing on Dr Neusner's own translations of the texts walks readers through the selections providing them with firsthand experience with the document itself As Dr Neusner says in his preface to The Midrash An Introduction In these pages I mean to make it possible for readers to know one such compilation from the other and so to begin studying their own **Nomination of John Agresto** United States. Society, the Sacred and Scripture in Ancient Judaism Jack N. Lightstone, 2010-10-30 This work explores the relationship between religion social patterns and the perception of the character of scripture in four modes of Ancient Judaism 1 the Jerusalem community of the fifth to fourth centuries B C E ie the Early Second Temple Period 2 the Judaism of the Graeco Roman Diaspora down to the end of the fourth century of the Christian Era 3 earliest rabbinic Judaism in the second century C E in the land of Israel 4 Late Antique Talmudic Rabbinism primarily in Babylonia down to the sixth century of the Christian Era Lightstone attempts not only to describe these perceptions and relationships but also to account for them to explore why scripture should be thus perceived His imaginative approach to the challenging descriptive and theoretical tasks

is influenced by literary and form critical methods as well as by the methods and perspectives of social anthropology and sociology of the mind This unique attempts at revising the perception of the character of scripture should arouse the interest of scholars and students of Ancient Judaism *Formative Judaism, Sixth Series* Jacob Neusner,1989 **The**

Transformation of Judaism Jacob Neusner,2011-03-31 Jacob Neusner describes analyzes and interprets the transformation of one system of the Israelite social order by a connected but autonomous successor system He characterizes the successive systems classifying the one as philosophical and the other as religious He explains the categorical account of each and sets forth the outcome of a number of topical studies on the category formations of Rabbinic Judaism with special attention to the social order politics philosophy and economics These systems emerged as 1 autonomous when viewed synchronically 2 connected when seen diachronically and 3 as a continuous construction when seen at the end of their formative age In their successive stages of categorical autonomy connection and finally continuity the three distinct systems may be classified respectively as philosophical religious and theological each one taking over and revising the definitive categories of the former and framing its own fresh generative categories as well The formative history of Judaism is the story of the presentations and re presentations of categorical structures In method it is the exegesis of taxonomy and taxic systems Now after more than two decades Neusner has decided to review the initial statement Since the book summarizes ten years of work from 1980 to 1990 on the Rabbinic category formations of social science politics philosophy and economics in the setting of the law and theology of Rabbinic Judaism from the Mishnah through the Bavli 200 600 C E it seemed well worth the effort to recapitulate the original work The revised introduction explains the omission of theology in his category formation philosophy religion theology Neusner s account of the Bavli produced the decade after this title was completed did not make possible the continuous description of the unfolding of the Rabbinic system The pattern that appealed to Neusner from philosophy to religion to theology has not yet come to a satisfactory account In the twenty years Method and Meaning in Ancient Judaism, Fourth Series Jacob Neusner,1989 **Ideas of Social Order in the Ancient World** Vilho

Harle,1998-03-25 Harle focuses on the perennial issue of social order by providing a comparative analysis of ideas on social order in the classical Chinese political philosophy the Indian epic and political literature Zoroastrianism Judaism the classical Greek and Roman political thought and early Christianity His analysis is based on the religious political and literary texts that represent their respective civilizations as both their major achievements and sources of shared values Harle maintains that two major approaches to establishing and maintaining social order exist in all levels and types of social relations moral principles and political power According to the principle oriented approaches social order will prevail if and when people follow strict moral principles According to the contending power oriented approach orderly relations can only be based on the application of power by the ruler over the ruled The principle oriented approaches introduce a comprehensive civil society of individuals the power oriented approaches give major roles to the city state its government and relationships

between them The question of morality can be recognized also within the power oriented approaches which either submit politics to morality or maintain that politics must be taken as nothing else than politics This book is a contribution to peace and international studies as well as political theory and international relations Social Foundations of Judaism Calvin Goldscheider, Jacob Neusner, 2004-10-14 *The Social Structure of the Rabbinic Movement in Roman Palestine* Catherine Hezser, 1997 While rabbinic literature enables us to know more about the rabbis than any of the other members of the Jewish population of Roman Palestine the social structure of the rabbinic movement remained largely unexplored In the present study Catherine Hezser combines a critical analysis of the available literary legal and epigraphic evidence with a selective employment of sociological models She examines the definition of the boundaries of the rabbinic movement deals with the nature of the relationships amongst rabbis and investigates the relationship between rabbis and their contemporaries that is students the community and the patriarch BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Pesahim, 1993 **Building Blocks of Rabbinic Tradition** Jacob Neusner, 2008 This book responds to a question that came to the author from Professor Maren Niehoff of the Hebrew University of Jerusalem Have you written a simple introduction to your documentary theory and method which can serve as a starting point for my students In this book are gathered eight of the more fundamental items of documentary theory and practice_three in theory five in practice_for Professor Niehoff's students and anyone else who takes an interest in the formative history of Judaism The documentary thesis of Rabbinic literature holds that the document_the Mishnah Sifra Lamentations Rabbah the Bavli for example_forms the basic building block of the Rabbinic tradition Excluded by that definition are sayings attributed to and stories told about named sages These cannot serve in the reconstruction of the Rabbinic tradition its literature history religion and theology The Religious Study of Judaism Jacob Neusner, 1988-12-07 In this volume Dr Neusner explores the history of religious ideas and writings focusing first on the idea of history and second on the conception of a foundation document comprising the Pentateuch and the Mishnah He then moves on to an interpretation of the implications for the history of Judaism of the distinctive and particular character of an important document Sifra a sustained address to the book of Leviticus by sages of the fourth or fifth century BContents Part I The Idea of History in Formative Judaism Part II The Constitution of the Judaism of the Dual Torah Part III Ethics or Ontology in Formative Judaism Part IV From Text to Matrix in the Case of Sifra Part V The University as Locus for Studying the Formative Age of Judaism **Academic Approaches to Teaching Jewish Studies** Zev Garber, 2000 Fourteen scholars and master teachers explore the challenges of teaching Jewish studies at American schools of higher education **Surpassing Wonder** Donald H. Akenson, 2001-09-29 Elegant and inventive *Surpassing Wonder* uncovers how the ancient Hebrew scriptures the Christian New Testament and the Talmuds of the Rabbis are related and how collectively they make up the core of Western consciousness Donald Harman Akenson provides an incisive critique of how religious scholars have distorted the holy books and argues that it was actually the inventor of the

Hebrew scriptures who shaped our concept of narrative history thereby founding Western culture

Theodicy and the Cross of Christ Tom Holmén, 2018-12-13 The death of Jesus is commonly regarded as the one radically novel perspective from which the problem of suffering is viewed in the New Testament as opposed to the appropriation of viewpoints present elsewhere in contemporary writings and in the Old Testament Tom Holmén's focus on the death of Jesus as a source of New Testament theodicy reveals a two-fold reasoning the lasting relevance of the theme of Jesus' death on the cross and theodicy and the lack of thorough and sustained New Testament investigations into this theme Holmén's argument focuses on the changes in the concept of suffering occasioned by the unprecedented sacrifice of Jesus He explores both the derivative nature of suffering as God's retribution or a test for discipline in line with the traditions known in the time contemporary to the formation of the New Testament and the sharp wholly new contrast of suffering as intercessory in the crucifixion of Christ Son of God appearing to the world as impossible Holmén considers many issues in his discussion including the context of providence and covenant and the problem that Jesus' death causes for theodicy He also examines other perspectives such as the writings of Paul and practical considerations of coping with anguish Taken as a whole this study provides a fresh examination of the crucifixion's central role for understanding New Testament approaches to suffering

Reading Philo Torrey Seland, 2014-11-30 A contemporary of both Jesus and the apostle Paul Philo was a prolific Jewish theologian philosopher and politician a fascinating somewhat enigmatic figure who lived his entire life in Alexandria Egypt His many books are important sources for our understanding of ancient Judaism early Christianity and the philosophical currents of that time *Reading Philo* is an excellent introductory guide to Philo's work and significance The contributors all well-known experts on Philo of Alexandria discuss Philo in context offer methodological considerations how best to study Philo and explore Philo's ongoing relevance and value why reading him is important This practical volume will be an indispensable resource for anyone delving into Philo and his world

Jewish Literacy in Roman Palestine Catherine Hezser, 2001 Since Judaism has always been seen as the quintessential religion of the book a high literacy rate amongst ancient Jews has usually been taken for granted Catherine Hezser presents the first critical analysis of the various aspects of ancient Jewish literacy on the basis of all of the literary epigraphic and papyrological material published so far Thereby she takes into consideration the analogies in Graeco-Roman culture and models and theories developed in the social sciences Rather than trying to determine the exact literacy rate amongst ancient Jews she examines the various types social contexts and functions of writing and the relationship between writing and oral forms of discourse Following recent social anthropological approaches to literacy the guiding question is who used what type of writing for which purpose First Catherine Hezser examines the conditions which would enable or prevent the spread of literacy such as education and schools the availability and costs of writing materials religious interest in writing and books the existence of archives and libraries and the question of multilingualism Afterwards she looks at the different types of writing such as letters documents miscellaneous notes

inscriptions and graffiti and literary and magical texts until she finally draws conclusions about the ways in which the various sectors of the populace were able to participate in a literate society
