**Mazzaroth; or, The constellations (by F. Rolleston). [Followed by] Mizraim; or, Astronomy of Egypt** Frances Rolleston, 1862 *Mazzaroth* Frances Rolleston, 2001-01-01 Modern biblical dictionaries and commentaries designed for a popular readership tend to shy away from any reference to the word Mazzaroth let alone attempt to interpret it This is scarcely surprising for the word is obscure and it occurs only once in the Bible twice if it is equated with Mazzaloth Traditional sources tended to interpret the word as meaning the constellations specifically those forming the zodiac But there was no universal agreement others accepted that the word referred to the zodiac or even identified it with the star Sirius The idiosyncratic ideas expressed in the four parts of Mazzaroth and its appendix Mizraim are all based on solid research misapplied perhaps in light of Rolleston's steadfast Christian outlook but fully documented and with sources quoted at length The whole work provides the reader with an amazing compendium of obscure material on ancient mythology symbolism and etymology with comprehensive biblical references and a wealth of learned and detailed footnotes Much of the information is set out in a tabular form that inevitably reminds the reader of S L MacGregor Mathers's book of correspondences that we know as 777 And this may not be coincidental Mazzaroth may have been passed over by reviewers when it appeared but it was not ignored by esoteric scholars even though they were not its intended readership W Wynn Westcott possessed a copy and loaned it to the Golden Dawn library where it was certainly read by F L Gardner he includes the book albeit misdated in his *Bibliotheca Astrologica* and most probably by Mathers when he compiled 777 It is a valuable resource that fully deserves its rescue from oblivion just as its neglected author deserves our praise Rolleston 1781-1864 spent her life studying the sky and the scriptures *Mazzaroth* Frances Rolleston, 2015-08-08 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Mazzaroth* Frances Rolleston, 2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the

**Mazzaroth: Or, The Constellations** Frances Rolleston, 1862 *The Story in The Stars* Elder Conrad Jarrell, 2018-04-25 The Story in The Stars is an exposition of Mazzaroth in his season the ancient Zodiac of 48 constellations The Names of those Stars tell the story of the Seed of the Woman the Desire of all nations He will come the First Time to battle the Serpent and free His Bride then leave for a long while He will come the Second Time to destroy the Serpent and take His Bride Home to Heaven

**Sky Scrapers** Judith Kaye, 2018-04-10 Sky Scrapers is about the adventure of a lifetime for Sam and Josh who are doing research for a high school science fair on astronomy The information comes to them by a mysterious teacher who takes them zooming through the universe in a unique way to learn about the purpose of stars comets and more that inhabit the heavens Later when at university they have another series of adventures that finds them moving through time from Adam's arrival on earth to Abram's tent in the desert Both of these thrilling events have a purpose to reveal how the heavens declare the glory of God and how this information has changed down through the ages This is a story for all ages to enjoy and maybe even to look at the stars in the heavens in a different way

**Poetic Astronomy in the Ancient Near East** Jeffrey L. Cooley, 2013-03-19 Modern science historians have typically treated the sciences of the ancient Near East as separate from historical and cultural considerations At the same time biblical scholars dominated by theological concerns have historically understood the Israelite god as separate from the natural world Cooley's study bringing to bear contemporary models of science history on the one hand and biblical studies on the other hand seeks to bridge a gap created by 20th century scholarship in our understanding of ancient Near

Eastern cultures by investigating the ways in which ancient authors incorporated their cultures celestial speculation in narrative In the literature of ancient Iraq celestial divination is displayed quite prominently in important works such as Enuma Eli and Erra and I um In ancient Ugarit as well the sky was observed for devotional reasons and astral deities play important roles in stories such as the Baal Cycle and Shahr and Shalim Even though the veneration of astral deities was rejected by biblical authors in the literature of ancient Israel the Sun Moon and stars are often depicted as active conscious agents In texts such as Genesis 1 Joshua 10 Judges 5 and Job 38 these celestial characters these sons of God are living dynamic members of Yahweh s royal entourage willfully performing courtly martial and calendrical roles for their sovereign The synthesis offered by this book the first of its kind since the demise of the pan Babylonianist school more than a century ago is about ancient science in ancient Near Eastern literature     A catalogue of the library of the corporation of ...
