Mcculloch Mac Cat User Manual:

Handbook of Forensic Psychology William O'Donohue, Eric R. Levensky, 2004-01-19 Forensic psychology has mushroomed into a diverse and increasingly complex field that is equal parts law and psychology. Psychologists act as expert witnesses in legal cases sometimes without knowing much about the laws involved and legal professionals rely on the assessment of psychologists sometimes without knowing much about how such assessments are made. The purpose of this handbook is to provide professionals with current practical and empirically based information to guide their work in forensic settings or to better their understanding of the issues and debates in forensic psychology. Divided into four sections, the *Handbook of Forensic Psychology* covers basic issues, assessment, mental disorders, and forensic psychology and special topics. The basic issue chapters present a primer on law for the psychologist, a primer on psychology for attorneys, an overview of ethical issues relevant to forensic psychology, and a chapter on forensic report writing. The assessment section discusses factors and measures relevant for assessing a variety of behaviors, propensities, and capabilities, including dangerousness, violence, suicide, competency, substance abuse, PTSD, and neuropsychological evaluations, as well as discussing interviewing children and child custody evaluations. Additional chapters discuss eyewitness testimony, recovered memory, polygraphs, sexual harassment, juror selection, and issues of ethnicity in forensic psychology.

Handbook of Treatments for Autism Spectrum Disorder Johnny L. Matson, 2017-10-03 This handbook provides a comprehensive review of the numerous factors associated with treatments for children, youth, and adults with autism spectrum disorder (ASD). It offers in-depth analysis of evidence-based treatments for young children, providing coverage on interventions within social skills training, school curricula, communication, and speech training, and augmentative communication. It also covers treatments for adolescents and adults, including vocational programs, social integration programs, and mental health resources. Chapters also review several popular interventions, such as functional behavior analysis, sensory integration therapy, early intensive behavioral interventions (EIBI), and floor time. In addition, the *Handbook* discusses standards of practice, focusing on ethical issues, review boards, training concerns, and informed consent. Topics featured in the *Handbook* include training for parents of individuals diagnosed with ASD, treatment of socially reinforced problem behavior, comorbid challenging behaviors, post-secondary education supports, and programs for adults. The TEACCH Program for people with ASD, treatment of addiction in adults with ASD, diet and nutrition-based treatments targeted at children with ASD. The *Handbook of Treatments for Autism Spectrum Disorder* is a must-have reference for researchers, clinicians, professionals, and graduate students in clinical child, school, and developmental psychology, child and adolescent psychiatry, and social work, as well as rehabilitation medicine, therapy, behavioral therapy, pediatrics, and educational psychology.

Evaluating Competencies Thomas Grisso, 2006-01-27 As in its first edition, this book offers a conceptual model for understanding the nature of legal competencies. The model is interpreted to assist mental health professionals in designing and performing assessments for legal competencies defined in criminal and civil law, and to

guide research that will improve the practice of evaluations for legal competencies A special feature is the book's evaluative review of specialized forensic assessment instruments for each of several legal competencies Three fourths of the 37 instruments reviewed in the second edition are new and thus were not reviewed in the first edition Application of the assessment model and reviews of instruments are provided for six areas of legal competence Competence to Stand Trial Waiver of Rights to Silence and Legal Counsel Not Guilty by Reason of Insanity Parenting Capacity Determination of Child Custody Guardianship and Conservatorship and Competence to Consent to Treatment
