Hospitality Management, Strategy and Operations Lynn Van der Wagen, Anne Goonetilleke, 2015-05-20 Hospitality Management 3e covers the core competency units in SIT07 Tourism Hospitality and Events Training Package for the Diploma and Advanced Diploma in Hospitality Management. It provides the foundation knowledge needed for the role of a hospitality manager. Key features of this text include coverage of the latest controversies in current events, discussion of the ethical issues that have made headlines in recent years, and strategies used by public relations practitioners. Each case has extensive supplemental materials taken directly from the case for students' further investigation and discussion. Helmreich, 2010-01-20 Crew Resource Management Second Edition continues to focus on CRM in the cockpit but also emphasizes that the concepts and training applications provide generic guidance and lessons learned for a wide variety of crews in the aviation system as well as in the complex and high risk operations of many non aviation settings Long considered the bible in this field much of the basic style and structure of the previous edition of Crew Resource Management is retained in the new edition Textbooks are often heavily supplemented with or replaced entirely by course packs in advanced courses in the aviation field as it is essential to provide students with cutting edge information from academic researchers government agencies FAA pilot associations and technology Boeing ALION This edited textbook offers ideal coverage with first hand information from each of these perspectives Case examples which are particularly important given the dangers inherent in real world aviation scenarios are liberally supplied An image collection and test bank make this the only text on the market with ancillary support The only CRM text on the market offering an up to date synthesis of primary source material New edition thoroughly updated and revised to include major new findings complete with discussion of the international and cultural aspects of CRM the design and implementation of LOFT Instructor website with testbank and image collection Liberal use of case examples Fast Food, Fast Talk Robin Leidner, 1993-08-04 Attending Hamburger University Robin Leidner observes how McDonald s trains the managers of its fast food restaurants to standardize every aspect of service and product Learning how to sell life insurance at a large midwestern firm she is coached on exactly what to say how to stand when to make eye contact and how to build up Positive Mental Attitude by chanting I feel happy I feel terrific Leidner s fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers language looks attitudes ideas and demeanor Her study reveals the complex and often unexpected results that come with the routinization of service work Some McDonald s workers resent the constraints of prescribed uniforms and rigid scripts while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers Combined Insurance goes further than McDonald s in attempting to standardize the workers very selves instilling in them adroit maneuvers to overcome customer resistance The routinization of service work has both poignant and preposterous consequences It tends to undermine shared understandings about individuality and social obligations sharpening the tension between the belief in personal autonomy and the domination of a powerful corporate culture Richly anecdotal and accessibly written Leidner s book charts new territory in the sociology of work With service sector work becoming increasingly important in American business her timely study is particularly welcome
