Christian Nation ,1927 **The Nation** ,1908 *History For A Nation* Stuart Macintyre,2016-10-18 There is a common belief that Australia acquired history only when it grew up and threw off its colonial origins after the Second World War Yet earlier generations of Australians created their own histories to express their sense of who they were and what they might be This book reveals that the quest for an Australian past found its way into our universities and schools from the early years of the Commonwealth Ernest Scott was the most prolific teacher and writer of history in inter war Australia A self taught degreeless professor he laid the foundations of a historical profession in this country and wrote the textbook that taught generations of schoolchildren the meaning of Australian history An Englishman and an imperialist active in public affairs he trained Australians to understand their colonial past as a guide to nationhood At the time when Australians debate their nationhood Asianisation and the republic A History for a Nation recalls a lost culture of urgent contemporary significance
