John Ruskin and the Ethics of Consumption David Melville Craig,2006 The first book on the Victorian critic and public intellectual John Ruskin by a scholar of religion and ethics this work recovers both Ruskin s engaged critique of economic life and his public practice of moral imagination With its reading of Ruskin as an innovative contributor to a tradition of ethics concerned with character culture and community this book recasts established interpretations of Ruskin s place in nineteenth century literature and aesthetics challenges nostalgic diagnoses of the supposed historical loss of virtue ethics and demonstrates the limitations of any politics that eschews common purpose as vital to individual agency and social welfare Although Ruskin s moralistic efforts did not always allow for democratic individuality equality and contestation his eclecticism Craig argues helps to correct these problems Further Ruskin s interdisciplinary explorations of beauty work nature religion politics and economic value reveal the ways in which his insights into the practical connections between aesthetics and ethics and culture and character might be applied to today s debates about liberal modernity today With the triumph of global capitalism and the near silence of any opposing voice Ruskin s model of an engaged reading of culture and his public practice of moral imagination deserve renewed attention This book provides students in religion politics and social theory with a timely reintroduction to this timeless figure
