Trow,Richard Denham,2020-08-30 *World of Britannia* forms the historical background to the *Britannia* trilogy The arrival of Rome's legions first under Julius Caesar then Aulus Plautius in the first century is well documented but the end of Roman rule in Britain remains forever in shadow illuminated only by contradiction and legend The action of the *Britannia* series spans the period 367-415AD the beginning of what historians with some justification used to call the Dark Ages It was the twilight of a civilisation that had lasted for nearly five hundred years and Britain would never be the same again This book documents the little we know from written records and from archaeology and gives a snapshot of a world that was on the brink of vanishing *World of Britannia* is an invaluable accompaniment to the series providing insights that are not possible in historical fiction As a standalone history book it provides a fast paced easily understood account of one of the least known eras in British history But we mustn't forget And we mustn't let our children forget or our children's children Forget what she frowned That there was a Wall and there were heroes of the Wall And there was once a Britannia
