Why Are We Yelling?

Buster Benson, 2019-11-19 Have you ever walked away from an argument and suddenly thought of all the brilliant things you wish you'd said? Do you avoid certain family members and colleagues because of bitter festering tension that you can't figure out how to address? Now finally there's a solution: a new framework that frees you from the trap of unproductive conflict and pointless arguing forever. If the threat of raised voices, emotional outbursts, and public discord makes you want to hide under the conference room table, you're not alone. Conflict or the fear of it can be exhausting. But as this powerful book argues, conflict doesn't have to be unpleasant. In fact, properly channeled conflict can be the most valuable tool we have at our disposal for deepening relationships, solving problems, and coming up with new ideas. As the mastermind behind some of the highest performing teams at Amazon, Twitter, and Slack, Buster Benson spent decades facilitating hard conversations in stressful environments. In this book, Buster reveals the psychological underpinnings of awkward, unproductive conflict and the critical habits anyone can learn to avoid it. Armed with a deeper understanding of how arguments work, you'll be able to remain confident when you're put on the spot, diffuse tense moments with a few strategic questions, facilitate creative solutions even when your team has radically different perspectives. Why Are We Yelling will shatter your assumptions about what makes arguments productive. You'll find yourself having fewer repetitive, predictable fights once you're empowered to identify your biases, listen with an open mind, and communicate well.

Gottman's 10 Principles for Doing Effective Couples Therapy (Norton Series on Interpersonal Neurobiology) Everest Media, 2022-04-26T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The history of the psychotherapy field is one of scientific study In the 1950s and 1960s many brilliant thinkers including Fritz Perls R D Laing B F Skinner and Albert Ellis broke free of Freudian constraints and created new therapies that focused on the here and now instead of the there and then 2 The cornerstones of family therapy were the ideas of reciprocity and venting which were based on the theory that healthy marriages are those where one partner responds to the other's good behavior with his or her own good behavior in turn But research has shown that airing resentments doesn't reduce anger it increases it 3 The idea that emotion is the enemy that mucks up the marital work of problem solving is a myth In fact emotions are central to problem solving Without access to our emotions our rational processes are handicapped and we become little better than a conglomeration of arbitrary and random behaviors 4 John had a colleague Robert Levenson who was also studying relationships They teamed up to study couples and found that it was extremely difficult to observe reliable patterns of behavior in just one person But when they studied interactions in pairs they
