Governance - Regieren in komplexen Regelsystemen ,2010 *University Governance in (Post-)Conflict Southern Sudan 2005-2011* Akiiki Babyesiza, 2014-11-24 Few studies have looked into the governance of universities in societies affected by armed conflicts because they are either meant for practitioners or focused on the role of universities for peace and development Akiiki Babyesiza offers an in depth analysis of the relationship between state higher education and society in a multicultural and multi religious post conflict setting and uses empirical data to question university governance concepts She explores the role that civil wars played in university development and governance in Sudan with a particular focus on Southern Sudan after the peace agreement of 2005 and before its secession in 2011 **Global Environmental**

Governance Louis J. Kotzé, 2012-01-01 This book is a novel sophisticated broad ranging and insightful study of the idea of global environmental governance but from a legal dimension and perspective While recognising that concepts and ideas used to describe governance are generally abstract vague and slippery this project brings clarity to the field by being theoretically informed contextually sensitive and pragmatically circumscribed Its conclusions and arguments open up a field of inquiry that has to be genuinely interdisciplinary and in that sense has great potential to contribute to a better understanding of environmental themes and issues This book is destined to become a landmark for legal academics who will write about environmental governance in that its concern is with the global governance of nature rather than a text that uses the environment as a pretext for understanding governance It is well written easy and enjoyable to read and while it traverses through diverse bodies of literature it manages to effectively communicate with a variety of scholarly communities Afshin Akhtarkhavari Griffith Law School Australia Fourth generation global environmental regulation attempts to address the complex realities of an interconnected environment global environmental problems and collective regulatory responses It merits conceptual clarity Louis Kotz reveals the legal contours and content of global environmental governance by chipping away such parts of the conceptual marble block as are not needed For the environmental lawyer it is a welcome and much

needed process of elimination This book provides a toolkit for lawyers to engage critically with the extra legal concept of environmental governance Its scrutiny and careful analysis contribute meaningfully to the environmental discourse Christine Voigt University of Oslo Norway Global Environmental Governance is a truly important book Drawing on a multitude of disciplines award winning environmental law Professor Louis Kotz masterfully explains the emerging concept of global environmental governance and its elements of globalism environmental law regulation and governance theory He makes a compelling case that the world has outgrown the sustainability model and moved toward this more all encompassing approach to environmental regulation This admirable book makes global environmental governance theory understandable and pertinent so environmental leaders lawyers and regulators can engage comfortably with this new vision for an ecologically and economically healthy world George Rock Pring University of Denver Sturm College of Law US This book in examining the relationship between global environmental governance and environmental law provides an important and timely contribution to the quest to fashion a more viable approach to regulating the relationship between humanity and the environment While the term governance is much employed in international environmental law scholarship its conceptual underpinnings have not on the whole been adequately addressed in the legal sphere and understanding of the symbiotic relationship between the two areas has suffered as a result This book makes a welcome start to tackling these issues and it is to be hoped will trigger renewed vigour in this socially and legally vital area of inquiry Karen Morrow University of Swansea Wales UK For years scholars of international law and international relations have developed parallel literatures In Global Environmental Governance Louis Kotz offers a common conceptual theoretical and normative ground in the global environmental field As a skillful lawyer he dissects terminology explains core assumptions and constructs causal chains But he does not stop there His shrewd analysis of power and authority individual incentives and collective action management and regulation builds a bridge between law and politics as disciplines concerned about what global environmental governance is and how it can be improved Maria Ivanova University of Massachusetts US In search of shelter from the buffeting blasts of climate change biodiversity loss resource depletion famine and disease states and public agencies community representatives resource users advocacy networks and citizens huddle together under the vast and varied institutional umbrellas of environmental governance Louis Kotz s innovative study systematically describes the role of environmental law as the springs stretchers ribs and handles of the decision making umbrellas we so desperately hope will hold firm when they are opened up in times of need Jamie Benidickson University of Ottawa Canada The concept of global environmental governance has been part of the lexicon in accounts of global environmental politics for some time Yet to date it has escaped comprehensive assessment from a legal perspective This groundbreaking work fills this gap in the literature It offers a masterful analysis of the theoretical underpinnings of the environmental governance and highlights the critical importance of environmental regulation in ensuring that environmental governance lives up to its promise as a means for

achieving truly ecologically sustainable development Tim Stephens University of Sydney Australia This timely book brings much needed clarity to the concept of environmental governance as manifested in the global regulatory domain The author argues that despite being used as a fashionable term by many including economists political scientists environmentalists and increasingly lawyers its theoretical contours and conceptual content remain unclear incoherent and inconsistent In addressing this problem the book begins by describing globalization as a general context of governance It comprehensively interrogates and clarifies both the governance and global governance concepts and then explains aspects and components of global environmental governance Finally it investigates the role of law in global environmental governance Providing a much needed definition of environmental governance and global environmental governance this comprehensive study will appeal to academics and researchers post graduate and under graduate students intergovernmental organizations such as UNEP WTO IUCN as well as governments and governmental agencies involved with environmental regulation

Borderlands of Governance Nora Crossey, 2025-04-15 Recognizing European cross border cooperation as a complex multilevel governance shaped by both bottom up and top down processes and viewing recent border regional strategies as a catalyst for decentralizing cross border relations in French German border regions this book examines municipal actors perspectives in the Greater Region specifically the département Moselle and the German Saarland Bridging governance and border studies by adopting a lens of borderlands of governance it studies the contributions of intermunicipal cross border governance to processes of bordering and place making and to systems of multilevel cross border governance In formal intermunicipal cross border networks whose relevance and ingenuity became particularly evident during the Covid 19 pandemic play a crucial role for the functioning of the borderspaces in some instances evolving into quasi territorial governance reflecting communities beyond national borders yet remaining bound to logics of territoriality and sovereignty Here the conceptualisation of borderlands of governance offers a framework for understanding them as contingent elements of multilevel cross border governance

The Formation of Coalitions in the European Union Maren Kreutler, 2015-03-26 This book investigates why European associations form interest coalitions which strategies these coalitions pursue to influence the EU institutions and how persistent they are over time In this context questions concerning the transparency of European decision making are approached The field of European energy policy serves as empirical background providing a valuable insight into a little researched area of European politics

State, Globalization and Multilateralism Mario Telò, 2012-02-16 This volume presents a reconsideration of the concepts of State and political power within the evolving multilateral network of cooperation and conflict By means of an innovating research strategy it explains state resilience within global governance while deepening the obsolescence of the traditional sovereign state concepts including by emerging powers Rather than considering the EU as an isolated case study the book considers the EU as both a reference and a proactive player which fosters a new research agenda both for comparative studies and political theory Lastly in view of the

currently emergent unprecedented and asymmetrical multi polar world it considers the need for a new research agenda on multilateralism From the Global to the Local Andrea Schapper,2013-11-07 From the Global to the Local develops a unique perspective on human rights governance in developing countries where the state often lacks the required resources capacities and expertise for implementing rights Considering how rights that have been agreed upon in the global arena of world politics are locally implemented this book then specifically explores how they reach the local children of Bangladesh s urban slums and poor rural areas Andrea Schapper combines an analytical framework grounded in international relations scholarship on global governance with empirical field research methods that have their basis in sociology and anthropology Utilising this methodology the book examines three principles that represent a global consensus on children s rights the protection of children from the worst forms of child labor providing them with primary education and delivering basic health care services to them to illuminating the need for local and contextual solutions to transnational issues Exploring such concerns with vigor this book fills a gap in the study of human rights implementation and protection and will thus be of immense interest to students of Law of International Relations and of Development Studies Geographies of Schooling Holger Jahnke,Caroline Kramer,Peter Meusbürger,2019-08-21 This open access book explores the complex relationship between schooling as a set of practices embedded in educational institutions and their specific spatial dimensions from different disciplinary perspectives It presents innovative empirical and conceptual research by international scholars from the fields of social geography pedagogy educational and social sciences in Germany the United Kingdom France Czechia Hungary Austria Switzerland Norway and Canada The book covers a broad range of topics all examined from a spatial perspective the governance of schooling the transition processes of and within national school systems the question of small schools in peripheral areas as well as the embeddedness of schooling in broader processes of social change Transcending disciplinary boundaries the book offers deep insights into current theoretical debates and empirical case studies within the broad research field encompassing the complex relationship between education and space *The Evolution of Intermediary Institutions in Europe* Poul F Kjaer,Eva Hartmann,2015-08-11 This book investigates the consecutive shifts between three types of intermediary institutions in the European context Corporatist Neo corporatist and Governance institutions It does so by combining insights from European Political Economy European Integration and governance studies and socio legal studies in the European context **The Law of Development Cooperation** Philipp Dann,2013-11-07 This comparative study of rules governing development assistance asks how accountability human rights and sovereignty are preserved while combating poverty **Know your food** Diana Elena Dumitras,Ionel Mugurel Jitea,Stef Aerts,2023-08-07 Food production and consumption is no longer a traditional activity Every day we make choices that influence not only our health but also that of other living beings and our planet Our food cultures are changing rapidly Do we still know our food And if not is that a bad thing This book presents the state of the art in agriculture and food ethics It considers a wide range of ethics and innovation

topics in agriculture aquaculture markets consumption and food culture Its multi disciplinary analysis by the many authors helps to understand our current global challenges At the same time it opens a wide range of new possibilities for future debate research and reflection towards a sustainable world The book will appeal to anyone interested in agriculture animal and food ethics To students and people looking for a quick overview it offers a wide range of issues Experienced readers will find a deepened analysis and new themes and perspectives adding to the existing body of knowledge *Sortition* Gil Delannoi, Oliver Dowlen, 2016-10-05 This volume reflects the up and coming academic interest in sortition It is based on contributions to the first international conference dedicated to the subject held at the University of Political Science Sciences Po in Paris in November 2008 The papers explore important theoretical questions such as how we should recognise and define differing lottery forms the relationship between sortition and different aspects and forms of democracy and its potential benefits to current political and commercial practice Contributors include Hubertus Buchstein Gil Delannoi Oliver Dowlen Gerhard G hler Barbara Goodwin Michael Hein Yves Sintomer Peter Stone and Antoine Vergne *Politics of Quality in Education* Jaakko Kauko, Risto Rinne, Tuomas Takala, 2018-05-11 The question of quality has become one of the most important framing factors in education and has been of growing interest to international organisations and national policymakers for decades *Politics of Quality in Education* focuses on Brazil China and Russia part of the so called emerging nations BRICS block and draws on a four year project to develop a new theoretical and methodological approach The book builds a comparative sociohistorical and transnational understanding of political relations in education with a particular focus on the policies and practices of Quality Assurance and Evaluation QAE Tracking QAE processes from international organisations to individual schools contributors analyse how QAE changes the dynamics in the roles of state expertise and governance The book demonstrates how national and sub national actors play a central role in the adaptation modification or rejection of transnational policies *Politics of Quality in Education* will be of great interest to academics researchers and postgraduate students engaged in the study of comparative and international education as well as educational policy and politics It should also be essential reading for practitioners and policymakers The Open Access version of this book available at <https://www.taylorfrancis.com/books/e/9781351362528> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *The Problem-solving Capacity of the Modern State* Martin Lodge, Kai Wegrich, 2014-10-23 The early 21st century has presented considerable challenges to the problem solving capacity of the contemporary state in the industrialised world Among the many uncertainties anxieties and tensions it is however the cumulative challenge of fiscal austerity demographic developments and climate change that presents the key test for contemporary states Debates abound regarding the state's ability to address these and other problems given increasingly dispersed forms of governing and institutional vulnerabilities created by politico administrative and economic decision making structures This volume advances these debates first by moving towards a cross sectoral perspective that takes into

account the cumulative nature of the contemporary challenge to governance focusing on the key governance areas of infrastructure sustainability social welfare and social integration second by considering innovations that have sought to add problem solving capacity and third by exploring the kind of administrative capacities delivery regulatory coordination and analytical required to encourage and sustain innovative problem solving This edition introduces a framework for understanding the four administrative capacities that are central to any attempt at problem solving and how they enable the policy instruments of the state to have their intended effect It also features chapters that focus on the way in which these capacities have become stretched and how they have been adjusted given the changing conditions the way in which different states have addressed particular governance challenges with particular attention paid to innovation at the level of policy instrument and the required administrative capacities and finally types of governance capacities that lie outside the boundaries of the state

Forests and Rural Development Jürgen Pretzsch, Dietrich Darr, Holm Uibrig, Eckhard Auch, 2014-01-21 This book provides an overview of the complex challenges and opportunities related to forest based rural development in the tropics and subtropics Applying a socio ecological perspective the book traces the changing paradigms of forestry in rural development throughout history summarizes the major aspects of the rural development challenge in forest areas and documents innovative approaches in fields such as land utilization technology and organizational development rural advisory services financing mechanisms participative planning and forest governance It brings together scholars and practitioners dealing with the topics from various theoretical and practical angles Calling for an approach that carefully balances market forces with government intervention the book shows that forests in rural areas have the potential to provide a solid foundation for a green global economy
