Don't be so disappointed; it's not as disastrous as you think

Its Not The End Of The World:

It's Not the End of the World Jonathan Parks-Ramage,2025-06-03 From the acclaimed author of *Yes Daddy* *It's Not the End of the World* is a terrifying climate thriller a vicious takedown of the uber wealthy and a queer family saga that isn't afraid to punch back It's 2044 and life is bleak for many Americans but not for Mason Daunt Safe in his Los Angeles mansion Mason can remain blissfully unaware of the relentless wildfires engulfing California the proliferation of violent right wing militias and the rampant authoritarianism destroying American society He's so rich in fact that he and his partner Yunho Kim are throwing a 100 person 100 000 baby shower to celebrate their newborn on the way When a potentially apocalyptic event hits Los Angeles on the day of their celebration though the wealthy gay couple refuses to cancel their party Surely it's not the end of the world But as Mason runs a few last minute errands a staggering twist thrusts him into the mounting chaos and threatens the lives of everyone he holds dear Shot through with biting wit brutal gore primal sex and unexpected catharsis *It's Not the End of the World* is a nerve shredding roller coaster of a novel that will leave readers shocked heartbroken and inspired to question their most firmly held convictions What happens when our current battles with climate change capitalism and white supremacy are pushed to their breaking points And how can we find hope

Depending on Strangers David P Levine,2021-03-01 We live in a world where our livelihood depends on our ability to relate to strangers The central quality that defines strangers is that they are unknown Because strangers are unknown they represent in the world outside the unknown self within The unknown self is the core of the personality considered as a potential to become something yet to be determined To be already known is to be determined prior to and independently of our presence in our lives At the outset of the process of taking form the individual is in a sense a stranger to self and to others The more this is the case the greater the openness of the process of self formation and the more marked the role of freedom from predetermination in that process Freedom from predetermination exists along three dimensions the free movement of thoughts and ideas or inner freedom the freedom to relate which is also the freedom not to relate and freedom in relating which is the possibility of maintaining secure self boundaries in relations with others In exploring freedom understood in this way Professor Levine considers such topics as the nature of inner freedom and its relationship to deliberation and choice stranger anxiety and its connection to group dynamics and social connection the internal factors that enable us to make the decisions that shape our lives and through our actions realize the ends embedded in our decisions how our memories shape our thought processes and therefore the choices we make and the lives we lead that result from them what makes it possible for us to live comfortably with and depend on people we do not know concern for the welfare of strangers and how our welfare can be secure in a world where we do not care about others and they do not care about us

Ethics in Light of Childhood John Wall,2010-08-12 Childhood faces humanity with its own deepest and most perplexing questions An ethics that truly includes the world s childhoods would transcend pre modern traditional communities and modern rational autonomy with a postmodern aim of growing responsibility It would understand human relations in a poetic rather than universalistic sense as openly and interdependently creative As a consequence it would produce new understandings of moral being time and otherness as well as of religion rights narrative families obligation and power Ethics in Light of Childhood fundamentally reimagines ethical thought and practice in light of the experiences of the third of humanity who are children Much like humanism feminism womanism and environmentalism Wall argues a new childism is required that transforms moral thinking relations and societies in fundamental ways Wall explores childhood s varied impacts on ethical thinking throughout history advances the emerging interdisciplinary field of childhood studies and reexamines basic assumptions in contemporary moral theory and practice In the process he does not just apply ethics to childhood but applies childhood to ethics in order to imagine a more expansive humanity **The Guide to the Perplexed** Moses

Human Extinction and the Pandemic Imaginary Christos Lynteris, 2019-09-19 This book develops an examination and critique of human extinction as a result of the next pandemic and turns attention towards the role of pandemic catastrophe in the renegotiation of what it means to be human Nested in debates in anthropology philosophy social theory and global health the book argues that fear of and fascination with the next pandemic stem not so much from an anticipation of a biological extinction of the human species as from an expectation of the loss of mastery over human non human relations Christos Lynteris employs the notion of the pandemic imaginary in order to understand the way in which pandemic borne human extinction refashions our understanding of humanity and its place in the world The book challenges us to think how cosmological aesthetic ontological and political aspects of pandemic catastrophe are intertwined The chapters examine the vital entanglement of epidemiological studies popular culture modes of scientific visualisation and

pandemic preparedness campaigns This volume will be relevant for scholars and advanced students of anthropology as well as global health and for many others interested in catastrophe the end of the world and the post apocalyptic **Reports and Documents** United States.
