flood and the precariousness of the levees originally constructed to protect citizens Backwater Blues reveals larger relationships between social and environmental history According to Mizelle musicians Harlem Renaissance artists fraternal organizations and Creole migrants all shared a sense of vulnerability in the face of both the Mississippi River and a white supremacist society As a result the Mississippi flood of 1927 was not just an environmental crisis but a racial event Challenging long standing ideas of African American environmental complacency Mizelle offers insights into the broader dynamics of human interactions with nature as well as ways in which nature is mediated through the social and political dynamics of race Includes discography
