

For millions of years energy has been coming down from above to planet Earth, with the purpose of raising the frequencies of our planet.

With the dawning of the Golden Age - which began with the end of the Mayan Calendar on the 23rd December 2012 - and its Golden Energy, things are starting to change.

The Golden Energy and its materialisation power have been hidden deep inside the Earth for millions of years, waiting for us humans to be ready to use them in a constructive and positive way, for the benefit of the Earth and of mankind.

Planet Earth is the epicentre of the integration of all energies and knowledge coming from the other planets in our solar system. The time is now right for Earth itself to take on the responsibility for future development here - and this is where the Golden Energy will play a major role.

By activating the Golden Energy, you will help contribute to the Whole in the way you were born to do, by successfully living out your life purpose on a daily basis, using your spirit energy.

This book will give you essential new insight as to how you fit into the bigger picture.

The Golden Age Playbook for a New Earth Order Jenö Joseph Giordano, 2024-12-24 The Golden Age Playbook for a New Earth Order After seven years of preparing for what has been more than just a story but our future Perhaps Fate will determine the course in which follows as I know the implications of my transgressions But also the Natural Truth of being bold in the face of adversity and the insurmountable fear that stands opposed to these Natural Truths The time has come for those who seek the unfiltered truth of how the Earth works And what is required to navigate the changes required to leverage the narrow passage we have before us This is not an invitation but a declaration of what is already occurring You can do what you wish with this information But know this The Golden Age is not asking it s happening This is not about one human leading humans but a state of beingness that begins inside who you are who we are where we live where we want to go what we want to do about it how we need to resolve it and the playbook that we become in order to arrive at the destination Therefore avoid the fear of propaganda which has so ever divulged us into evaporating what nature we have left in us and return back to who we are in the natural form While bringing the new age of gadgets we possess towards our future Know this there has been a wake of bones buried in the making of this heroes sacrificing to make room for a narrow passage to exist Lives are on the line for those locked into this manifestation of progress Whatever you do Download this locally on a hard drive share it and ensure you read it to understand what is before us

Natural Speculations We see unhappy examples to the contrary amongst the Christian Fathers and particularly in St Austin who was unquestionably a Man of Parts and Learning but interposing in a controversie where his Talent did not lie show d his zeal against the Antipodes to very ill purpose though he drew his Reasons partly from Scripture And if within a few Years or in the next Generation it should prove as certain and demonstrable that the Earth is mov d as it is now that there are Antipodes those that have been zealous against it and ingag d the Scripture in the Controversie would have the same reason to repent of their forwardness that St Austin would have now if he was alive Tis a dangerous thing to ingage the authority of Scripture in disputes about the Natural World in opposition to Reason lest Time which brings all things to light should discover that to be evidently false which we had made Scripture to assert And I remember St Austin in his Exposition upon Genesis hath laid down a rule to this very purpose though he had the unhappiness it seems not to follow it always himself The reason also which he gives there for his rule is very good and substantial 1For saith He if the Unbelievers or Philosophers shall certainly know us to be mistaken and to erre in those things that concern the Natural World and see that we alledge our Sacred Books for such vain opinions how shall they believe those same Books when they tell them of the RESURRECTION of the Dead and the World to come if they find them to be fallaciously writ in such things as lie within their certain knowledge

The Sacred Theory of the Earth (Complete) Thomas Burnet, 1907-01-01 Since I was first inclin d to the Contemplation of Nature and took Pleasure to trace out the Causes of Effects and the Dependance of one thing upon another in the visible Creation I had always methought a particular Curiosity to look back into the Sources and Original of Things and to view in my Mind so far as I was able the Beginning and Progress of a Rising World And after some Essays of this Nature and as I thought not unsuccessful I carried on my Enquiries further to try whether this Rising World when form d and finish d would continue always the same in the same Form Structure and Consistency or what Changes it would

successively undergo by the continued Action of the same Causes that first produc d it and lastly what would be its final Period and Consummation This whole Series and Compass of Things taken together I call d a Course of Nature or a System of Natural Providence and thought there was nothing belonging to the external World more fit or more worthy our Study and Meditation nor any thing that would conduce more to discover the Ways of Divine Providence and to shew us the Grounds of all true Knowledge concerning Nature And therefore to clear up the several Parts of this Theory I was willing to lay aside a great many other Speculations and all those dry Subtilties with which the Schools and the Books of Philosophers are usually fill d But when we speak of a Rising World and the Contemplation of it we do not mean this of the Great Universe for who can describe the Original of that vast Frame But we speak of the Sublunary World this Earth and its Dependencies which rose out of a Chaos about Six Thousand Years ago And seeing it hath fallen to our Lot to act upon this Stage to have our present Home and Residence here it seems most reasonable and the Place design d by Providence where we should first employ our Thoughts to understand the Works of God and Nature We have accordingly therefore design d in this Work to give an Account of the Original of the Earth and of all the great and general Changes that it hath already undergone or is hence forwards to undergo till the Consummation of all things For if from those Principles we have here taken and that Theory we have begun in these two first Books we can deduce with Success and Clearness the Origin of the Earth and those States of it that are already past following the same Thread and by the Conduct of the same Theory we will pursue its Fate and History thro future Ages and mark all the great Changes and Conversions that attend it while Day and Night shall last that is so long as it continues an Earth By the States of the Earth that are already past we understand chiefly Paradise and the Deluge Names well known and as little known in their Nature By the future States we understand the Conflagration and what new Order of Nature may follow upon that till the whole Circle of Time and Providence be compleated As to the first and past States of the Earth we shall have little help from the Ancients or from any of the Philosophers for the Discovery or Description of them We must often tread unbeaten Paths and make a Way where we do not find one but it shall be always with a Light in our Hand that we may see our Steps and that those that follow us may not follow us blindly There is no Sect of Philosophers that I know of that ever gave an Account of the Universal Deluge or discover d from the Contemplation of the Earth that there had been such a Thing already in Nature Tis true they often talk of an Alternation of Deluges and Conflagrations in this Earth but they speak of them as Things to come at least they give no Proof or Argument of any that hath already destroyed the World As to Paradise it seems to be represented to us by the Golden Age whereof the Ancients tell many Stories sometimes very luxuriant and sometimes very defective For they did not so well understand the Difference betwixt the new made Earth and the present as to see what were the just Grounds of the Golden Age or of Paradise though they had many broken Notions concerning those Things as to the Conflagration in particular This hath always been reckon d one amongst the Opinions or Dogmata of the Stoicks That the World was to be destroyed by Fire and their Books are full of

this Notion but yet they do not tell us the Causes of the Conflagration nor what Preparations there are in Nature or will be towards that great Change And we may generally observe this of the Ancients that their Learning or Philosophy consisted more in Conclusions than in Demonstrations they had many Truths among them whereof they did not know themselves the Premises or the Proofs Which is an Argument to me that the Knowledge they had was not a Thing of their own Invention or which they came to by fair Reasoning and Observations upon Nature but was delivered to them from others by Tradition and ancient Fame sometimes more publick sometimes more secret These Conclusions they kept in Mind and communicated to those of their School or Sect or Posterity without knowing for the most part the just Grounds and Reasons of them The Spenser Encyclopedia Albert Charles Hamilton,1997-01-01 A reference book for scholarship on Edmund Spenser offering a detailed literary guide to his life works and influence Over 700 entries by 422 contributors an index and extensive bibliography *The 39th Golden Age of Science Fiction MEGAPACK®: John W. The Theory of the Earth Thomas Burnet,1697 **Epic Pastures** Eleni Ntanou,2025-03-17 Although nearly all scholars acknowledge that the *Metamorphoses* appears to engage with pastoral poetry there has not been a monograph specifically designed to address and explore the interaction between pastoral and epic in the *Metamorphoses* This book fills in this gap building on modern approaches to intertextuality Ovidian and pastoral studies The present book is comprised from five main chapters 1 Pastoral Encounters 2 Female Pastoral 3 Mourning Pastoral 4 Pastoral Ascent in the *Metamorphoses* 5 Pastoral

Golden Age and the Metamorphoses The chapters are often in dialogue with one another thus offering a more sustained examination of the topic Alongside the lack of comprehensive monograph on pastoral in the Metamorphoses the preseny book s originality and contribution lie on the exploration of pastoral in the Metamorphoses through the lenses of fiction heroics and gender notions which are interwoven throughout the chapters This modern approach to generic interaction will be useful for scholars working on Ovid and across the range of Greek and Roman literature as well as for students of Classics
