

GoPro mounts

Suction Cup

This small but mighty piece of kit is proven at up to speeds of 150+mph, and can be used on cars, boats, motorcycles and more. Whether you want to test it to its limits is up to you, but the reviews are raving, and the company says it's an industrial-strength product that's been engineered for stability and a broad range of motion. The kit comes with a standard base and a quick release base, which means you can move conveniently between shots and locations. The adjustable arms make it a compact mount, but to achieve the maximum holding strength, you'll need to attach it to a clean surface, so make sure to wipe over any surfaces you plan to attach it to with an alcohol wipe to ensure it is the cleanest it can be.

© GoPro

Surfboard Mounts

Surely one of GoPro's most iconic mounts, this one can attach your beloved camera to a surfboard, SUP or kayak. This new style GoPro surf mount is smaller than the original, but still has enough surface area to stick securely. It won't stick properly to a bodyboard, but the more compact sizing means that you can mount it further up a surfboard so it's easier to remove when not in use. You get two mounts in the pack, and it's ideal for using during activities where you need maximum holding strength. Be sure to give the mount enough time to bond to the board, before you go plunging it in the surf.

Introducing GoPro

Shoot fast This mount is a must if you plan to use it at incredibly high speeds © GoPro

Add a Floaty Backdoor Attaching a bright floating backdoor is a great way to spot your camera out in the water
