Its All About Team Exposing The Black Talented Tenth:

In Search of the Talented Tenth Zachery R. Williams, 2010-01-29 From the 1920s through the 1970s Howard University was home to America's most renowned assemblage of black scholars. This book traces some of the personal and professional activities of this community of public intellectuals demonstrating their scholar activist nature and the myriad ways they influenced modern African American African and Africana policy studies. *In Search of the Talented Tenth* tells how individuals like Rayford Logan, E. Franklin Frazier, John Hope Franklin, Merze Tate, Charles Wesley, and Dorothy Porter left an indelible imprint on academia and black communities alike through their impact on civil rights, anticolonialism, and women's rights. Zachery Williams explores W. E. B. Du Bois's Talented Tenth by describing the role of public intellectuals from the Harlem Renaissance to the Black Power movement in times as trying as the Jim Crow and Cold War eras. Williams first describes how the years 1890 to 1926 laid the foundation for Howard's emergence as the capstone of Negro education during the administration of university president Mordecai Johnson. He offers a wide ranging discussion of how the African American community of Washington, D. C. contributed to the dynamism and intellectual life of the university and he delineates the ties that linked many faculty members to one another in ways that energized their intellectual growth and productivity as scholars. He also discusses the interaction of Howard's intellectual community with those of the West Indies, Africa, and other places showing the international impact of Howard's intellectuals and the ways in which black and brown elites outside the United States stimulated the thought and scholarship of the Howard intellectuals. *In Search of the Talented Tenth* marks the first in depth study of the intellectual activity of this community of scholars and further attests to the historic role of women faculty in shaping the university. It testifies to the impact of this group as a model against which the twenty first century's black public intellectuals can be measured.

The Oxford Handbook of W. E. B. Du Bois Aldon D. Morris, Michael Schwartz, Cheryl Johnson-Odim, Walter R. Allen, Marcus Anthony Hunter, Karida L. Brown, Dan S. Green, 2024 The wide ranging work of W. Du Bois critical to understanding the role that race has played in creating the modern world we find around us mostly has been ignored or hidden from sociological researchers until after the civil rights movement in the U. S. As a result one of the key goals of *The Oxford Handbook of W. E. B. Du Bois* is to reclaim Du Bois from those efforts to marginalize his thought. The chapters of this volume explore in a comprehensive manner all aspects of Du Boisian sociology. It is organized into ten thematic sections: Social Theory, Change and Agency, Sociology, Social Science, Humanities, Public Intellectual, Women and Gender Studies, Methodologies and Archival Resources, Black Interiority and Whiteness, Color Line, Empire, Marxism and War, Talented Tenth and Black Colleges and Universities, Black Community, Religion, Crime and Wealth, Internationalism, Pan Africanism, and Anti Colonialism.
