The Living Qur'ān Ali J.

Hussain, 2023-06-06 This work aims to distill the findings of a wide variety of scholarly disciplines into a coherent narrative of the Qur n s history from the first oral recitation to the four published Variants in active circulation today In the process of unraveling the complicated relationships between the oral Qur n and the written Qur n it becomes clear that there are in fact two histories of the Qur n and that the overall history of the Qur n cannot be appreciated without understanding the interactions between these two occasionally intertwined but often independent component histories Discrepancies between the four qur nic Variants that are in active use today are indexed and analyzed While most scholarship views the Qur n either in relation to its past and its possible origins or in relation to its contemporary status as a static fixed text this work adopts an

organic developmental approach recognizing that the Qur'an is a living text that continues to evolve

The Global Muslim Brotherhood in Britain Damon Perry, 2018-07-17 Since 2011, with the British Government's counter radicalisation strategy, Prevent, non-violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence. More recently, the Government has expressed concerns about their impact on social cohesion, entryism, and women's rights. The key protagonists of non-violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama'at al-Islami. They have been described as part of the global Muslim Brotherhood, but do they constitute a singular phenomenon, a social movement? This book shows that such groups and individuals do indeed comprise a movement in Britain, one dedicated to an Islamic revival. It shows how they are networked organisationally, bonded through ideological and cultural kinship, and united in a conflict of values with the British society and state. Using original interviews with prominent revivalist leaders, as well as primary sources, the book also shows how the movement is not so much Islamist in aspiring for an Islamic state, but concerned with institutionalising an Islamic worldview and moral framework throughout society. The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields, including education, governance, law, and counterterrorism. But this does not simply concern the direction of Government policy or the control of state institutions. It most fundamentally concerns the symbolic authority to legitimise a way of seeing, thinking, and living. By assessing this multifaceted conflict, the book presents an exhaustive and up-to-date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities. It will be useful for anyone studying Islam in the West, government counterterrorism and counter extremism, policy, multiculturalism, and social cohesion.

Muslims Teresa Bernheimer, Andrew Rippin, 2013-03-01 Andrew Rippin's *Muslims* is essential reading for students and scholars alike. This new edition has been comprehensively updated and for the first time features a companion website with extensive links to additional reading and resources to help deepen students' understanding of the subject. *Muslims* offers a survey of Islamic history and thought from the formative period of the religion to modern times. It examines the unique elements which have combined to form Islam, in particular the Qur'an and the influence of Muhammad, and traces the ways in which these sources have interacted historically to create Muslim theology and law, as well as the alternative visions of Islam found in Shi'ism and Sufism. Combining core source materials with

coverage of current scholarship and of recent events in the Islamic world Andrew Rippin introduces this hugely significant religion in a succinct challenging and refreshing way The improved and expanded fourth edition contains a new chapter on perceptions of Muslims today as well as a new series of text boxes to stimulate students thinking about essay topics and research projects Using a distinctive critical approach that promotes engagement with key issues from fundamentalism and women s rights to problems of identity Islamophobia and modernity this text is ideal for today s students **Living**

Measures of Spirituality/Religiosity—Description of Concepts and Validation of Instruments Arndt Büssing, 2019-04-23

Why do we need more questionnaires to measure aspects of spirituality religiosity when we already have so many well tried instruments in use One answer is that research in this field is growing and that new research questions continuously do arise Several of these new questions cannot be easily answered with the instruments designed for previous questions The field is expanding and consequently the research topics Meanwhile several multidimensional instruments were developed which cover existential prosocial religious and non religious forms of spirituality hope peace and trust and several more The disadvantage of these instruments is the fact that some are conceptually broad and often rather unspecific but they might be suited quite well for culturally and spiritually diverse populations when the intention is to compare such diverse groups This is the reason why more research on new instruments is needed as can be found in this Special Issue and to stimulate a critical debate about their pros and cons
