Jacques Lacan And The Philosophy Of Psychoanalysis

Ann Bugliani

Jacques Lacan And The Philosophy Of Psychoanalysis:

Jacques Lacan and the Philosophy of Psychoanalysis Ellie Ragland-Sullivan, 1986 Offers an analysis of Jacques Lacan's thought for the English speaking world Using empirical data as well as Lacan's texts this title demonstrates how Lacan's teachings constitute a new epistemology that goes far beyond conventional thinking in psychoanalysis psychology philosophy and linguistics *Jacques Lacan: Philosophy* Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century He not only revolutionized the psychoanalytic practice but in his return to Freud he also deployed a global reinterpretation of the entire structural linguistics and semiotics The influence of Lacan's work is widespread It gave rise to passionate discussions not only in France but also in the UK US Germany Italy Latin America Japan and Eastern Europe stretching beyond the field of psychoanalysis itself to philosophy the social sciences and cultural studies The texts selected present the entire scope of the Lacan debate focusing on the four main domains of Lacan's influence psychoanalytic theory and practice philosophy social sciences and cultural studies **Five Lessons on the Psychoanalytic Theory of Jacques Lacan** Juan-David Nasio, 1998-01-01 In this first English translation of a classic text by one of the foremost commentators on Lacan's work Nasio eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments Five Lessons on the Psychoanalytic Theory of Jacques Lacan is the first English translation of a classic text by one of the foremost commentators on Lacan's work Juan David Nasio makes numerous theoretical advances and eloquently demonstrates the clinical and practical import of Lacan's theory even in its most difficult or obscure moments What is distinctive in the end about Nasio's treatment of Lacan's theory is the extent to which Lacan's fundamental concepts the unconscious jouissance and the body become the locus of the overturning or exceeding of the discrete boundaries of the individual The recognition of the of the implications of Lacan's psychoanalytic theory then brings the analyst to adopt what Nasio calls a special listening [The Instruction of Philosophy and Psychoanalysis by Tragedy](#) Ann Bugliani, 1999 This powerful study is based on the premise that literary theory is important because literature is important Bugliani explores the intersection of tragedy with philosophy and psychoanalysis A threefold purpose is evident to examine the tension between philosophy and literature to discuss the teaching of tragedy and finally to discuss that teaching in the works of Lacan Marcel and above all Paul Claudel *Jacques Lacan* Slavoj Žižek, 2003 Jacques Lacan 1901-1980 is undoubtedly the central figure of psychoanalysis in the second half of the 20th century The texts selected here present the entire scope of the Lacan debate **Jacques Lacan, Past and Present** Alain Badiou, Elisabeth Roudinesco, 2014-05-06 Prompted by the thirtieth anniversary of the French philosopher Jacques Lacan's death this exchange between two prominent intellectuals is rich with surprising insights Alain Badiou shares the clearest most detailed account to date of his profound indebtedness to Lacanian psychoanalysis He explains in depth the tools Lacan gave him to navigate the extremes of his other two philosophical masters Jean Paul Sartre and Louis Althusser Elisabeth Roudinesco supplements

Badiou's experience with her own perspective on the troubled landscape of the French analytic world since Lacan's death critiquing for example the link or lack thereof between politics and psychoanalysis in Lacan's work among other issues Their dynamic dialogue draws readers into an intimate at times contentious yet ultimately productive debate that reinvigorates the work of a pivotal twentieth century thinker **Jacques Lacan and the Other Side of Psychoanalysis** Justin

Clemens, Russell Grigg, 2006-05-23 DIVArticles by noted Lacanian psychoanalysts and scholars discussing issues that emerge in Lacan's Seminar XVII newly translated that import fields of psychoanalysis philosophy political theory cultural studies and literary studies div **The Book of Love and Pain** Juan-David Nasio, 2004-01-01 Addresses the limits in treating pain

psychoanalytically and offers a phenomenological description of psychic pain particularly the pain of a lost loved one

Being and Contemporary Psychoanalysis Yuri Di Liberto, 2019-05-23 This book explores how philosophical realisms relate to psychoanalytical conceptions of the Real and in turn how the Lacanian framework challenges basic philosophical notions of object and reality The author examines how contemporary psychoanalysis might respond to the question of ontology by taking advantage of the recent revitalization of realism in its speculative form While the philosophical side of the debate makes a plea for an independent ontological consistency of the Real this book proposes a Lacanian reassessment of the definition of the Real as what is foreign to subjectivity itself In doing so it reframes the question of the Real in terms of what is already there beneath the supposedly linguistic constitution of subjectivity The book then goes on to engage the problem of cognition in the realm of Nature qua materiality focusing on the centrality of the body as a linguistic material hybrid It argues that it is possible to re-establish the theoretical dignity of Ricoeur's notion of suspicion by building a dialogue between Lacanian psychoanalysis and three main domains of inquiry desire objects and bodily enjoyment Borrowing from Piera Aulagnier's theory of the Other as a word bearer it considers the genesis of desire and sense of reality both explainable through a hybrid framework which comprises psychoanalytical insights and material dynamics in a comprehensive account This created theoretical space is an opportunity for both philosophers and psychoanalysts to rethink key Lacanian insights in light of the problem of the Real **Jouissance** Néstor A. Braunstein, 2020-08-01 Whether inscribed within the context of

capitalist or neoliberal logic and its imperative to enjoy as a critique of all forms of heteronormativity a liberating force in a positive reading of biopolitics the point of inflection in the ethics of psychoanalysis or articulated in the knot of the sinthome the concept of jouissance is either the diagnosis response or solution for a wide range of contemporary discontents Why does jouissance occupy such a central place in contemporary psychoanalytic discourse What is jouissance the name for Originally published in Spanish in 1990 later expanded and translated into French and Portuguese with multiple reprints in all three languages this book addresses both theoretical and clinical applications of jouissance through a comprehensive overview of key terms in Lacan's grammar N stor A Braunstein also examines it in relation to central debates within the fields of psychoanalysis philosophy queer theory and literary studies to further explore the implications of Lacan's concept for

contemporary thought *A Search for Clarity* Jean-Claude Milner, 2020-12-15 In *A Search for Clarity* Jean-Claude Milner argues that although Jacques Lacan's writing is notoriously obscure his oeuvre is entirely clear In a discussion that considers the difference between the esoteric and exoteric works of Plato and Aristotle Milner argues that Lacan's oeuvre is to be found in his published writings alone not his transcribed seminars and that these published writings contain his official doctrine Thus Lacan's oeuvre is already complete even though many of his seminars remain unpublished According to Milner Lacan's fundamental idea is that the subject psychoanalysis works on is the subject of science Milner suggests that this is a supplement to Alexandre Koyr's and Alexandre Kojve's accounts of modern science for which mathematization and a break from the ancient episteme were key *A Search for Clarity* is the definitive statement on how Lacan viewed the relationship between psychoanalysis and science and on how Lacan's thinking evolved as he struggled to draw out the consequences of the equation he posited between psychoanalysis and science Milner's work on Lacan has been essential reading in French for decades This English translation will make his illuminating work accessible to a broader audience *Lacan and the Limits of Language* Charles Shepherdson, 2009-08-25 This book weaves together three themes at the intersection of Jacques Lacan and the philosophical tradition The first is the question of time and memory How do these problems call for a revision of Lacan's purported ahistoricism and how does the temporality of the subject in Lacan intersect with the questions of temporality initiated by Heidegger and then developed by contemporary French philosophy The second question concerns the status of the body in Lacanian theory especially in connection with emotion and affect which Lacanian theory is commonly thought to ignore but which the concept of *jouissance* was developed to address Finally it aims to explore beyond the strict limits of Lacanian theory possible points of intersection between psychoanalysis and other domains including questions of race biology and evolutionary theory By stressing the question of affect the book shows how Lacan's position cannot be reduced to the structuralist models he nevertheless draws upon and thus how the problem of the body may be understood as a formation that marks the limits of language Exploring the anthropological category of race within a broadly evolutionary perspective it shows how Lacan's elaboration of the imaginary and the symbolic might allow us to explain human physiological diversity without reducing it to a cultural or linguistic construction or allowing race to remain as a traditional biological category Here again the questions of history and temporality are paramount and open the possibility for a genuine dialogue between psychoanalysis and biology Finally the book engages literary texts Antigone Ovid's *Metamorphoses* Hamlet and even Wordsworth become the muses who oblige psychoanalysis and philosophy to listen once again to the provocations of poetry which always disrupts our familiar notions of time and memory of history and bodily or affective experience and of subjectivity itself **Lacan, Language, and Philosophy** Russell Grigg, 2009-01-01 *Lacan Language and Philosophy* explores the linguistic turn in psychoanalysis taken by Jacques Lacan Russell Grigg provides lively and accessible readings of Lacan and Freud that are grounded in clinical experience and informed by a background in analytic philosophy He addresses

key issues in Lacanian psychoanalysis from the clinical how psychosis results from the foreclosure of the signifier the Name of the Father the father as a symbolic function the place of transference to the philosophical the logic of the *pas tout* the link between the superego and Kant's categorical imperative a critique of *Levinas*'s account of radical change Grigg's expertise and knowledge of psychoanalysis produce a major contribution to contemporary philosophical and psychoanalytic debates

Resistances of Psychoanalysis Jacques Derrida, 1998 In the three essays that make up this stimulating and often startling book Jacques Derrida argues against the notion that the basic ideas of psychoanalysis have been thoroughly worked through argued and assimilated The continuing interest in psychoanalysis is here examined in the various resistances to analysis conceived not only as a phenomenon theorized at the heart of psychoanalysis but as psychoanalysis's resistance to itself an insusceptibility to analysis that has to do with the structure of analysis itself Derrida not only shows how the interest of psychoanalysis and psychoanalytic writing can be renewed today but these essays afford him the opportunity to revisit and reassess a subject he first confronted in an essay on Freud in 1966 They also serve to clarify Derrida's thinking about the subjects of the essays Freud Lacan and Foucault a thinking that especially with regard to the last two has been greatly distorted and misunderstood The first essay on Freud is a tour de force of close reading of Freud's texts as philosophical reflection By means of the fine distinctions Derrida makes in this analytical reading particularly of *The Interpretation of Dreams* he opens up the realm of analysis into new and unpredictable forms such as meeting with an interdiction when taking an analysis further is forbidden by a structural limit Following the essay that might be dubbed Derrida's return to Freud the next is devoted to Lacan the figure for whom that phrase was something of a slogan In this essay and the next on Foucault Derrida reenounters two thinkers to whom he had earlier devoted important essays which precipitated stormy discussions and numerous divisions within the intellectual milieus influenced by their writings In this essay which skillfully integrates the concept of resistance into larger questions Derrida asks in effect What is the origin and nature of the text that constitutes Lacanian psychoanalysis considering its existence as an archive as teachings as seminars transcripts quotations etc Derrida's third essay may be called not simply a criticism but an appreciation of Foucault's work an appreciation not only in the psychological and rhetorical sense but also in the sense that it elevates Foucault's thought by giving back to it ranges and nuances lost through its reduction by his readers his own texts and its formulaic packaging *Lacan on Psychosis* Jon Mills, David L. Downing, 2018-09-21 This is the first book of its kind that attempts to distill Lacan's views on psychosis for both a specialized and non specialized audience An attempt is made to present Lacan's unorganized theories to apply to conceptual paradigms in psychoanalysis and the humanities as well as applied clinical practice This effort is in the spirit of fostering dialogue and educating different theoretical orientations within psychoanalysis on what Lacan and his followers have contributed to emerging contemporary perspectives on psychotic phenomena in both normative and pathological populations Within Lacanian circles there is debate over what constitutes psychosis including defining the ordinary from

pathological variants that have historically defined the phenomena as a mental illness Here psychosis is not defined by hegemonic authoritarian psychiatry but rather as a conceptual framework or philosophical perspective supported by descriptive narrative and symptomatic phenomenology that challenges preconceived notions of what we typically consider psychosis to entail In this book a variety of perspectives are presented by internationally respected scholars and clinicians who examine what Lacan had to say about psychosis from his nuanced theories represented in select texts including omissions extrapolations and new applications as well as how clinical methodology and technique have been adapted and advanced by practitioners treating psychotic individuals Lacan on Psychosis will be of interest to academics scholars researchers and practitioners in the fields of psychoanalysis psychotherapy philosophy cultural theory the humanities and the behavioral sciences

The Seminar of Jacques Lacan Jacques Lacan, 1988-05-19 **Jacques Lacan** Samo Tomšič, Andreja Zevnik, 2015-09-16 A charismatic and controversial figure Lacan is one of the most important thinkers of the twentieth century and his work has revolutionized a range of fields The volume aims to introduce Lacan's vast opus to the field of international politics in a coherent and approachable manner The volume is split into three distinct sections Psychoanalysis and Politics this section will frame the discussion by providing general background of Lacan's engagement with politics and the political Lacan and the Political each chapter will focus on different key ideas and concepts in Lacan's thought including ethics justice discourse object a symptom jouissance Political Encounters seeks to represent different ways of engaging with Lacanian thought and ways of adopting it to explain and comment on global political phenomena Bringing together internationally recognised scholars in the field this volume will be an invaluable resource to students and scholars in areas including critical theory international relations political theory and political philosophy

Sartre and Psychoanalysis Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre's work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud's psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud's work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self's ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational needs By comparing Sartre with Freud and influential post-Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy

Lacan with the Philosophers Ruth Ronen, 2018-03-01 Closely examining Jacques Lacan's unique mode of engagement with philosophy Lacan with the Philosophers sheds new light on the interdisciplinary relations between philosophy and

psychoanalysis While highlighting the philosophies fundamental to the study of Lacan's psychoanalysis Ruth Ronen reveals how Lacan resisted the straightforward use of these works Lacan's use of philosophy actually has a startling effect in not only providing exceptional entries into the philosophical texts of Aristotle Descartes Kant and Hegel but also in exposing the affinity between philosophy and psychoanalysis around shared concepts including truth the unconscious and desire and at the same time affirming the irreducible difference between the analyst and the philosopher Inspired by Lacan's resistance to philosophy Ruth Ronen addresses Lacan's use of philosophy to create a fertile moment of exchange Straddling the fields of philosophy and psychoanalysis with equal emphasis Lacan with the Philosophers develops a unique interdisciplinary analysis and offers a new perspective on the body of Lacan's writings Eros and Ethics Marc De Kesel, 2009

Jacques Lacan And The Philosophy Of Psychoanalysis Book Review: Unveiling the Power of Words
