Nutrition Johannes le Coutre, 2025-05-23 Over the second half of the 20th century many questions relating to food and nutrition science were considered to be nearly understood and beyond ensuring the balanced delivery of proteins carbohydrates and fats no major discoveries were anticipated in this scientific field Much of the technological advancements in the field were focused on food production and procurement at scale Now about half a century later the domain of food and nutrition science technology is experiencing a renaissance unlike any other We are not only discussing food and public health using narratives ranging from functional to superfoods but we are also engaging in conversations about planetary health and the role of foods as medicine among other topics Furthermore we are beginning to realize the intricate interplay between

food systems and our global climate Our methods of procuring nutrition contribute to climate change and we are witnessing a significant increase in climate driven events that threaten our food security Ten years ago in collaboration with the team at Frontiers we founded Frontiers in Nutrition to provide a rigorous science based platform for the open access publication and exchange of findings within a fully integrated scope of discussing food and nutrition With this Research Topic we welcome the world s foremost influential and leading scientists to join us in celebrating our 10th anniversary and to contribute bold and visionary articles *Nuclear Science Abstracts* ,1967 Scientific and Technical Aerospace Reports ,1978
