Simpson, 2017-02-10 This book explores five cultural traits Diversity Integrity Curiosity Reflection and Connection that encourage the birth and successful development of new ideas and shows how organizations that are serious about innovation can embrace them Innovation the driver of change and resilience It is totally dependent on culture the social environment which shapes how ideas emerge and evolve Ideas need to breathe and culture determines the quality of the air If it's stuffy and lacks flow then no idea however brilliant will live long enough to fulfil its potential Creating these innovation friendly conditions is one of the key challenges facing organizations today and one that is especially difficult for them focused as they are on efficiency and control Innovation Anna Simpson argues begins with diversity of thought and attitude the opposite of conformity and standardisation Likewise with ongoing pressures to deliver results before yesterday how can organizations allow sufficient space for the seemingly aimless process of following interesting possibilities and pondering on the impact of various options Anna Simpson shows how large organizations can adapt their culture to enable the exchange of different perspectives to support each person to bring their whole self to their work to embrace the aimlessness that fosters creative experimentation to take the time to approach change with the care it deserves and lastly to develop the collective strength needed to face the ultimate sledgehammer test Working Mother, 2000-10 The magazine that helps career moms balance their personal and professional lives
