M. Mackie,No Kill '98 Conference,1998 *ETS AND PENNIES: DO MORE LOW-COST SPAY AND NEUTER CLINICS HAVE AN IMPACT ON COUNTY ANIMAL CONTROL SERVICES BUDGETS?* Amy Costanzo,2015 In the past several decades the public service campaign to adopt animals from shelters and rescues as opposed to buying them from pet shops or breeders has become exceptionally popular This campaign stems from a focus on animal shelter overpopulation a problem that has been blamed in large part on the lack of sterilization of animals Since the early 1970s low cost clinics funded by both private and public dollars have proliferated around the country Spaying and neutering animals obviously prevents unwanted litters and by extension saves lives from euthanasia However there is little to no research on the fiscal impact of low cost spay and neuter clinics on local animal control budgets It would be reasonable to assume that net of the operating costs of operating public spay neuter clinics municipalities would save money they would otherwise have needed to round up house and or euthanize unwanted domestic animals This analysis examines this issue and finds that there is no significant relationship between the numbers of low cost spay and neuter clinics and county budgets for animal control services net of other economic and demographic controls **Low Cost Spay Neuter Clinics** Society for Animal Rights (U.S.),1978* *Municipally Operated Low Cost Spay-neuter Clinics* Society for Animal Rights (U.S.),1974* *Study of Costs and Potential Effectiveness of a Public Low Cost Spay Neuter Clinic* Minneapolis (Minn.).
