Examining FCE and CAE Roger Hawkey, 2009-03-19 This volume examines the historical development of the First Certificate in English FCE and the Certificate in Advanced English CAE *57 Common Reflexive Verbs in English (C1-C2)* Diego Méndez ,Mike Smith, 2024-08-16

What are reflexive verbs Reflexive verbs are transitive verbs whose subject and object refer to the same person or thing so the object is always a reflexive pronoun such as myself yourself and herself Examples I washed myself He introduced himself and they shook hands Watch out because verbs that are reflexive in some languages may not be reflexive in English For example in Spanish we say

relajarse but in English we say relax not relax yourself In French we say se rappeler but in English we say remember nor remember yourself and in German we say sich vorstellen while in English we say imagine not imagine yourself This ebook contains 57 of the most common reflexive verbs that are taught to advanced English learners It will help you to familiarise yourself with them and notice them while reading in English or listening to spoken English so that you can take your English skills to the next level

Defining and Assessing Lexical Proficiency Agnieszka Leńko-Szymańska, 2019-11-05 This comprehensive account of performance based assessment of L2 lexical proficiency analyzes and compares two of the primary methods of evaluation used in the field and unpacks the ways in which they tap into different dimensions of one model of lexical competence and proficiency This book builds on the latest research on performance based assessment which has most recently pointed to the application of more quantitative measures to L2 data to systematically explore the qualitative method of using human raters in assessment exercises and the quantitative method of using automatic computation of statistical measures of lexis and phraseology Supported by an up to date review of the existing literature both approaches unique features are highlighted but also compared to one another to provide a holistic overview of performance based assessment as it stands today at both the theoretical and empirical level These findings are exemplified in a concluding chapter which summarizes results from an empirical study looking at a range of lexical and phraseological features and human raters scores of over 150 essays written by both L2 learners of English and native speakers Taken together the volume challenges existing tendencies within the field which attempt to use one method to validate one another by demonstrating their capacity to indicate very different elements of lexical proficiency thereby offering a means by which to better conceptualize performance based assessment of L2 vocabulary in the future This book will be of interest to students and researchers working in second language acquisition and applied linguistics research particularly those interested in issues around assessment vocabulary acquisition and language proficiency The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a CC BY NC ND 4.0 license
