Khartoum The Ultimate Imperial Adventure:

Khartoum Michael Asher, 2006-11-02 The British campaign in the Sudan in Queen Victoria's reign is an epic tale of adventure more thrilling than any fiction. The story begins with the massacre of the 11,000 strong Hicks Pasha column in 1883. Sent to evacuate the country, British hero General Gordon was surrounded and murdered in Khartoum by an army of dervishes led by the Mahdi. The relief mission arrived 2 days too late. The result was a national scandal that shocked the Queen and led to the fall of the British government. Twelve years later it was the brilliant Herbert Kitchener who struck back. Achieving the impossible, he built a railway across the desert to transport his troops to the final devastating confrontation at Omdurman in 1898. Desert explorer and author Michael Asher has reconstructed this classic tale in vivid detail. Having covered every inch of the ground and examined all eyewitness reports, he brings to bear new evidence questioning several accepted aspects of the story. The result is an account that sheds new light on the most riveting tale of honour, courage, revenge, and savagery of late Victorian times. **Slaves of Fortune** Ronald M. Lamothe, 2011 The Anglo-Egyptian reconquest of Sudan, Churchill's River War, has been well chronicled from the British point of view, but we still know little about its front-line troops, the Sudanese soldiers of the Egyptian Army. Making use of unpublished primary sources and published material located in the United Kingdom and Sudan, *Slaves of Fortune* provides an historiographic correction. It argues that nineteenth-century Sudanese slave soldiers were social beings and historical actors shaping both European and African destinies just as their own lives were being transformed by imperial forces. Jacket. **Imperial Boredom** Jeffrey A. Auerbach, 2018 *Imperial Boredom* offers a radical reconsideration of the British Empire during its heyday in the nineteenth century. Challenging the long-established view that the empire was about adventure and excitement with heroic men and intrepid women eagerly spreading commerce and civilization around the globe, this thoroughly researched, engagingly written, and lavishly illustrated account suggests instead that boredom was central to the experience of empire. Combining individual stories of pain and perseverance with broader analysis, Professor Auerbach considers what it was actually like to sail to Australia to serve as a soldier in South Africa or to accompany a colonial official to the hill stations of India. He reveals that for numerous men and women, from explorers to governors, tourists to settlers, the Victorian Empire was dull and disappointing. Drawing on diaries, letters, memoirs, and travelogues, *Imperial Boredom* demonstrates that all across the empire, men and women found the landscapes monotonous, the physical and psychological distance from home debilitating, the routines of everyday life wearisome, and their work tedious and unfulfilling. The empire's early years may have been about wonder and marvel, but the Victorian Empire was a far less exciting project. Many books about the British Empire focus on what happened; this book concentrates on how people felt. **People, Places and Passions** Russell Davies, 2015-06-15 It takes a different view of the history of Wales, examining a panorama of different emotions and experiences: laughter, happiness, fear, anger, adventure, lust, loneliness, anxiety, to give an entertaining and exciting new history to Wales. A wide range of sources are used to present the

ambitions and anxieties which drove and destroyed Welsh people The book's literary style and the fact that it follows earlier successful studies by the author should ensure an audience

Empire and Jihad Neil Faulkner, 2021-08-24 A panoramic provocative account of the clash between British imperialism and Arab jihadism in Africa between 1870 and 1920 The Ottoman Sultan called for a Great Jihad against the Entente powers at the start of the First World War He was building on half a century of conflict between British colonialism and the people of the Middle East and North Africa Resistance to Western violence increasingly took the form of radical Islamic insurgency Ranging from the forests of Central Africa to the deserts of Egypt Sudan and Somaliland Neil Faulkner explores a fatal collision between two forms of oppression one rooted in the ancient slave trade the other in modern coolie capitalism He reveals the complex interactions between anti slavery humanitarianism British hostility to embryonic Arab nationalism war on terror moral panics and Islamist revolt Far from being an enduring remnant of the medieval past or an essential expression of Muslim identity Faulkner argues that Holy War was a reactionary response to the violence of modern imperialism

Sudan Paul Clammer, 2009 The only English language guidebook dedicated to Sudan with full coverage of the country's newly accessible south

The Mahdi and Africa John D Grainger, 2025-11-30 The story of the Mahdi of Sudan is generally related from the British point of view though it was more an African event The Mahdi's uprising was the latest in a series of Islamic rebellions and wars which began in the eighteenth century It also had a profound effect on the rest of North and East Africa destroying the Egyptian Empire provoking Ethiopia into a new unification which allowed it to successfully resist the Mahdists the Egyptians and the Italians it brought British forces forward from the East African coast as far as Uganda for fear that some European power would seize the sources of the Nile and block the river's flow Eventually but only after several humiliating defeats the Mahdist state was overthrown by a British invasion led by Kitchener and participated in by Churchill this also produced a difficult confrontation at Fashoda between the British conquerors and a French expedition sparking a European crisis The author sets the Mahdist war in the wider context of Africa and Islam and in the context of the development of African states but also with a glance forward to the present day where the most important development in Africa is the extensive Islamic uprising which is replicating that of the nineteenth century

Winston Churchill and the Art of Leadership William Nester, 2020-09-30 A unique biography that explores how Churchill viewed pursued and used power by the award winning author of Napoleon and the Art of Diplomacy Many indeed are the biographies of Winston Churchill one of the most influential figures of the twentieth century But what was that influence and how did he use it in the furtherance of his and his country s ambitions For the first time Professor William Nestor has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to place him in positions of power His thirst for power stirred political controversy wherever he intruded Those who had to deal directly with him either loved or hated him His enemies condemned him for being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill s political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings
