Losing The Signal Jacquie McNish, Sean Silcoff, 2015-05-26 It was a classic modern business story two Canadian entrepreneurs build an iconic brand that would forever change the way we communicate From its humble beginnings in an office above a bagel store in Waterloo Ontario BlackBerry outsmarted the global giants with an addictive smartphone that generated billions of dollars Its devices were so ubiquitous that even President Barack Obama favoured them above all others But just as it was emerging as the dominant global player BlackBerry took a dramatic turn Losing the Signal is the riveting never before told story of one of the most spectacular technological upsets of the 21st century Unlike Enron which was undone by its executives illegal activities or Lehman Brothers which collapsed as part of a larger global banking crisis BlackBerry's rise and fall is a modern day tale of the unrelenting speed of success and failure It is a thrilling account of how two mismatched CEOs outsmarted more powerful competitors with a combination of innovation and sharp elbowed tactics and how once on top of the world they lost their way The company responded too slowly to competitors innovations and when it finally made its move it stumbled with delayed poorly designed and unpopular smartphones A little more than a decade after Research In Motion introduced the BlackBerry it is now struggling to survive Its share of the US phone market fell from 50 per cent in 2009 to about one percent in 2013 showing just how aggressive fast and unforgiving today's global business market can be
