'Pre-Islamic Survivals' in Muslim Central Asia R. Charles Weller, 2023-04-30 The book traces the conceptual lens of historical cultural survivals from the late 19th century theories of E B Tylor James Frazer and others in debate with monotheistic degenerationists and Protestant anti Catholic polemicists back to its origins in Jewish Christian and Muslim traditions as well as later more secularized forms in the German Enlightenment and Romanticist movements These historical sources particularly the dual faith tradition of Russian Orthodoxy significantly shaped both Tsarist and later Soviet ethnography of Muslim Central Asia helping guide and justify their respective religious missionary social legal political and other imperial agendas They continue impacting post Soviet historiography in complex and debated ways Drawing from European Central Asian Middle Eastern and world history the fields of ethnography and anthropology as well as Christian and Islamic studies the volume contributes to scholarship on syncretism and conversion definitions of Islam history as identity and heritage and more It is situated within a broader global historical frame addressing debates over pre Islamic Survivals among Turkish and Iranian as well as Egyptian North African Berber Black African and South Asian Muslim Peoples while critiquing the legacy of the Geertzian cultural turn within Western post colonialist scholarship in relation to diverging trends of historiography in the post World War Two era *Islam in Historical Perspective* Alexander

Knysh, 2024-09-30 *Islam in Historical Perspective* is a general introduction to Islam and the history of Muslim societies Richly illustrated by quotations and images from Muslim scripture historical chronicles artistic works and theological and juridical treatises it invites the reader to examine this evidence and to form a comprehensive understanding of Islam s evolution from its inception in Arabia to the present day Combining chronological and thematic principles this book examines Muslims political and intellectual struggles over the meaning and practical implications of their faith Treating Islam as a language that various factions and generations of Muslims have used to express their grievances aspirations and personal experiences and preferences the book shows the religion s remarkable potency as a social political and cultural force and source of identity It also describes and analyses Muslim devotional practices emotional responses to the revelation artistic and intellectual creativity and patterns of everyday existence The goal of this book is to help the reader to develop personal empathy for the subject by showing the relevance of the dilemmas faced by Muslims in different epochs and geographical locations to the burning issues of today s world A thorough analysis of pivotal events trends and personalities of Islamic history is accompanied by witness accounts showing how they were perceived by Muslims themselves This new edition features a thoroughly revised text updated bibliography new illustrations study questions and chapter summaries and is an outstanding resource for students of Islam and Muslim civilization *An Analysis of Albert Hourani's A History of the Arab Peoples* Brown, Bryan Gibson, 2017-07-05 Few works of history make as well structured a case for the importance of studying continuity rather than change than Albert Hourani s *A History of the Arab Peoples* Hourani s work had three major aims to

refute the idea that Arab society stagnated between 1000 and 1800 to study the period through the lens of diverse Arab rather than Muslim history and to stress intellectual and cultural continuity All of these intentions were the product of the author's evaluation of a great mass of secondary sources many of them devoted to arguing for ideas that contradicted his and it demanded considerable skill to synthesize from them a coherent and well evidenced counter argument Hourani was able to do this largely because his grasp of the relevance and adequacy of his predecessors arguments was second to none his achievement lies in his ability to reject the reasoning of other historians while still making good use of their evidence In this task he was aided by an interpretative skill almost equal to his powers of evaluation A History of the Arab Peoples is also a monument to the importance of properly understanding the meaning of available evidence

Historical Mosques in Indonesia and the Malay World Bagoes Wiryomartono, 2023-07-23 The book is an interdisciplinary study on the relationship between Muslims and their mosques in Indonesia and Malaysia It presents selected historic mosques that demonstrate local interpretations and sociocultural assimilation as well as a geographical syncretism of Islam in local societies The book unveils the contestations synchronizations assimilations and integrations of local and foreign elements into the contextual architecture and sociologically institutionalized system that is the mosque the Islamic place of worship The author excavates the mosque's historical origins and traces the iconic elements features and designs from their earliest historical settings and contexts He then identifies analyzes and theorizes the outcomes of the interaction between Islam and local traditions through Malaysian and Indonesian case studies The book proposes that Islam at its philosophical level can be culturally acceptable anywhere because it contains universal virtues of humanity for equality fraternity and social justice The book unfolds how a dialectical contestation and acculturation of Dutch colonialism Middle Eastern elements of culture and local customs and traditions might then come into dialogue peacefully Finally the book considers the relationship between Malay and Indonesian architecture within their respective political cultures shedding light on Islam and its practice within rich multicultural contexts Relevant to students and researchers in Islamic studies architecture and Southeast Asian studies more broadly the book uncovers the issues constraints and opportunities relating to the meaning of mosques for Muslims in Malaysia and Indonesia

Islamicate Cosmopolitan Spirit Bruce B. Lawrence, 2021-09-08 Discover the essence of the Islamicate Cosmopolitan Spirit and what it has contributed to societies across the ages In Islamicate Cosmopolitan Spirit author and expert Bruce B. Lawrence delivers a spiritual elan filtered through cultural practices and artefacts Neither juridical nor creedal the book expresses a desire for the just and the beautiful The author sets out an original and fascinating theory that Islamicate cosmopolitanism marks a new turn in global history An unceasing self critical pursuit of truth hitched to both beauty and justice its history is marked by male elites who were scientific exemplars in the pre modern period In the modern period these exemplars include women as well as men artists as well as scientists The Islamicate Cosmopolitans have had special impact across the Afro Eurasian ecumene at the heart of civilized exchange between multiple groups with

competing yet convergent interests The Islamicate Cosmopolitan Spirit is a boundary busting challenge to those who think of the world merely in terms of an Arab Middle East Readers will also benefit from A thorough introduction to the Islamicate Cosmopolitan Spirit across time and space An exploration of premodern Afro Eurasia and Persianate Culture in the Indian Ocean A practical discussion of the future of the Islamicate Cosmopolitan Spirit Perfect for all students of Islamicate civilization both traditional and progressive Islamicate Cosmopolitan Spirit will also earn a place in the libraries of general readers of world history and those grounded in the larger history of Islamicate Asia will find a perspective that centers their own contribution to the Islamicate Cosmopolitan Spirit **40 Episodes on Persian Figures** Nadia Maftouni,2017-10-16

Although this book is dedicated to author s course ESL for humanities it as well includes some parts of the history of Persian scientists Here an expert follow Better known as Nasir al Din Toosi or simply Toosi in the West he was a mathematician physician astronomer logician philosopher jurisprudent and theologian staying abreast of the sciences of his time Toosi corresponded with Sadr al Din Qunawi the son in law of ibn Arabi It appears however Toosi was not well absorbed in the conversation Composing his own manual of philosophical mysticism in Awsaf al Ashraf Toosi assumed that Sufism so propagated by the masters of his time could not compel his attention Islamic Economics and Human Well-being

Muhammad A. Khan,2024-05-02 The study of Islamic economics provides an interesting complement to conventional economics as they both study economic behaviour to enhance human well being Muhammad Akram Khan articulates an expert view on how to use distinct approaches to achieve this in the context of Islamic economics *The Tragedy of Human Development* Tim Di Muzio,2017-12-12 How might an objective observer conceive of what humans have accomplished as a species over its brief history Benjamin argues that history can be judged as one giant catastrophe Liberals suggest that this is to sombre an assessment and that human history can be read as a story of greater and greater progress in human rights prosperity and the decrease of arbitrary and extra judicial violence But is there a third reading of history one that neither interprets human history as a giant catastrophe or endless progress Could we not say that human development has been a tragedy This book explores the idea of human development as a tragedy from the perspective of capitalist power Although the argument of this book draws heavily on critical political economy the analysis considers interdisciplinary literature in an effort to explore how major revolutions have transformed human social relations of power and created certain path dependencies that may ultimately lead to our downfall as a species Intellectually sophisticated and readable this book offers a provocative genealogy of capitalist power and the tragedy of human development **Muslim Perspectives on**

Islamophobia Zouhir Gabisi,2024-08-06 The Islamic positioning of Islamophobia is presented in this book Through Islamic or Muslim perspectives the book engages with various Islamic texts and discourses spoken and written emanating from preachers and scholars of Islam to discuss the points of convergence and divergence with the Western interpretation of the phenomenon The book aims to look at Islamophobia from a hitherto unexplored angle by first analyzing the points of

convergence and divergence between the internal Muslim and external Western perspectives and then by providing new approaches to curbing Islamophobia through a holistic spiritual dimension of Islam and cultural memory The book contends that the bridges of understanding between the East and the West can only be built if some of Islam's theological concepts such as the place of reason in Islam are reinterpreted by considering the Islamic perspectives While the book acknowledges previous work on Islamophobia it contributes to a deeper understanding of Islamophobia in its internal and external manifestations by considering the theoretical frameworks of racism and xenophobia Readers interested in Islamic studies and anti racism narratives would find this book's eclectic approach and balanced perspective of the phenomenon informative and enlightening
