Love In The Time Of Aids Love In The Time Of Aids:

Love in the Time of AIDS Mark Hunter, 2021-12-22 In some parts of South Africa more than one in three people are HIV positive *Love in the Time of AIDS* explores transformations in notions of gender and intimacy to try to understand the roots of this virulent epidemic By living in an informal settlement and collecting love letters cell phone text messages oral histories and archival materials Mark Hunter details the everyday social inequalities that have resulted in untimely deaths Hunter shows how first apartheid and then chronic unemployment have become entangled with ideas about femininity masculinity love and sex and have created an economy of exchange that perpetuates the transmission of HIV AIDS This sobering ethnography challenges conventional understandings of HIV AIDS in South Africa *Love in a Time of AIDS* Gillian Paterson, 1996 The crisis created by HIV AIDS in health services medical science and the everyday lives of families and communities is well known Yet despite growing awareness the pandemic continues and research shows that the proportion of women among those newly infected is growing everywhere in the world Young women now account for two thirds of new infections among people between 15 and 24 What is becoming ever clearer is that where women s social economic and cultural status is low they are more likely to become infected with HIV and pass the virus on to others Vividly recounting the stories of women in many countries this book shows how the AIDS crisis makes improving the status of women not only a matter of theology and ethics but of health and survival That in turn challenges churches which often justify and even collude with forces that subordinate women to change attitudes and visions and to undertake creative new initiatives in their ministries of healing and hope Love in the Time of Money Thomas Shulich, 2009 Since the late 20th century Thailand has been associated with a thriving international sexual services industry One specialized niche of this industry markets young local men as paid exhibitionists to older foreign admirers This book explores erotic love among these men It is a study of vacation boyfriends male sex workers and international gay tourism It represents ethnographic fieldwork conducted from 1997 to 2002 in Chiangmai City Going beyond academic analysis of sexuality in terms of discourses of power issues of identity politics normality perversion and deviance this work explores intimate connections and the sociology of love Three analytical perspectives cultural ideologies sexual marketplaces and erotic roles are deployed to investigate how commercial and cultural factors facilitate and frustrate enhance and distort the erotic love which men of different racial and social classes experience for one another This work contributes to the research into the patois of cultural values generated at the intersections between modern Asian and Western societies It should also be of interest to scholars of gender and sexuality

Love in the Time of Contagion Laura Kipnis, 2022-02-08 In this timely insightful and darkly funny investigation the acclaimed author of *Against Love* asks what does living in dystopic times do to our ability to love each other and the world COVID 19 has produced new taxonomies of love intimacy and vulnerability Will its cultural afterlife be as lasting as that of HIV which reshaped consciousness about sex and love even after AIDS itself had been beaten back by medical science Will

COVID end up making us more relationally conservative as some think HIV did within gay culture Will it send us fleeing into emotional silos or coupled cocoons despite the fact that pre COVID domestic coupledness had been steadily losing fans Just as COVID revealed our nation to itself so did it hold a mirror up to our relationships In *Love in the Time of Contagion* Laura Kipnis weaves often hilariously her own ambivalent coupled lockdown experiences together with those of others and sets them against a larger backdrop the politics of the virus economic disparities changing gender relations and the ongoing institutional crack ups prompted by MeToo and Black Lives Matter mapping their effects on the everyday routines and occasional solaces of love and sex
