## **Love Thy Neighbor A Story Of War:**

Love Thy Neighbor Peter Maass, 1996 What Michael Herr's *Dispatches* was to the Vietnam War *Love Thy Neighbor* is to the Bosnian War a brilliantly observed and deeply felt evocation of war by a writer who witnessed it The work immediately calls to mind Heller's *Catch 22* for its grasp of the absurdity of war and for its accurate presentation of the events Neil Sheehan's *A Bright Shining Lie* Travel Narrative and the Ends of Modernity Stacy Burton, 2014 Combining theoretical arguments with close reading this text traces how twentieth century writers have reinvented travel narrative for new purposes **Alliance Formation in Civil Wars** Fotini Christia, 2012-11-12 This book argues power balances rather than shared identities explain why warring Afghan groups aligned with and double crossed each other *The Cambridge World History of Genocide: Volume 3, Genocide in the Contemporary Era, 1914-2020* Ben Kiernan, Wendy Lower, Norman Naimark, Scott Straus, 2023-05-04 Volume III examines the most well known century of genocide the twentieth century Opening with a discussion on the definitions of genocide and ethnic cleansing and their relationships to modernity it continues with a survey of the genocide studies field racism and antisemitism The four parts cover the impacts of Racism Total War Imperial Collapse and Revolution the crises of World War Two the Cold War and Globalization Twenty eight scholars with expertise in specific regions document thirty genocides from 1918 to 2021 in Europe the Middle East Africa Asia and Latin America The cases range from the Armenian Genocide to Maoist China from the Holocaust to Stalin's Ukraine from Indonesia to Guatemala Biafra Bangladesh Cambodia Bosnia and Rwanda and finally the contemporary fate of the Rohingyas in Myanmar and the ISIS slaughter of Yazidis in Iraq The volume ends with a chapter on the strategies for genocide prevention moving forward **Book Lust** Nancy Pearl, 2009-09-29 What to read next is every book lover's greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of litterateurs with *What If All Name the City* Read the Same Book has devised reading lists that cater to every mood occasion and personality These annotated lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl's enthusiasm and taste shine throughout **Madness Visible** Janine di Giovanni, 2007-12-18 As a senior foreign correspondent for *The Times of London* Janine di Giovanni was a firsthand witness to the brutal and protracted break up of Yugoslavia With unflinching sensitivity *Madness Visible* follows the arc of the wars in the Balkans through the experience of those caught up in them soldiers numbed by the atrocities they commit women driven to despair by their life in paramilitary rape camps civilians di Giovanni among them caught in bombing raids of uncertain origin babies murdered in hate induced rage Di Giovanni's searing memoir examines the turmoil of the Balkans in acute detail and uncovers the motives of the leaders who created hell on earth it raises challenging questions about ethnic conflict and the responsibilities of foreign governments in times of mass murder Perceptive and compelling this unique work of

reportage from the physical and psychological front lines makes the madness of war wholly visible **The Muslim-Croat Civil War in Central Bosnia** Charles R. Shrader, 2003-06-12 In *The Muslim-Croat Civil War in Central Bosnia 1992-1994* Charles R. Shrader offers the first full scale military history of a crucial conflict in Bosnia between two former allies. When the Bosnian Serbs and their Serbian allies attacked Bosnia Herzegovina in March 1992, the Bosnian Croats and Muslims collaborated to defend themselves. As Serbian pressure increased and it became clear that the West would not intervene, the two allies began to stake out their own claims. Drawing on testimony and exhibits from cases presented before the International Criminal Tribunal for the former Yugoslavia, Shrader describes the organization and tactical doctrine of the Croatian Defense Forces and the Muslim-led Army of Bosnia Herzegovina. He analyzes the strengths and weaknesses of the two sides in such fields as communications, training, and logistics. He assesses not only the problems of command and control in the newly formed armies but also the impact of criminal activity, the mujahedeen, and the intervention of peacekeeping forces. What looked to many like aggression by the Bosnian Croats, Shrader views as the adoption of an active defense doctrine embraced by U.S. forces against a predatory Muslim force. He believes UN and European observers rushed to judgment regarding the aggressive intent of the Croatian command. Far from being the attackers, Shrader concludes the Bosnian Croats in Central Bosnia were clearly outnumbered, outgunned, and on the defensive. Surrounded by superior Muslim forces, they barely held out in their enclaves in the Lasva Valley until a cease-fire was achieved in February 1994. Although Shrader's work is a detailed, meticulous analysis by a neutral expert, not everyone will find his conclusions comfortable. But every serious student of the conflict in Bosnia will have to take his history into account. Enhanced by maps, useful appendices, and a glossary, this should become the standard work on military operations in Central Bosnia and a useful case study of internal warfare and ethnic conflict. [The Unknown Europe](#) James R. Payton Jr., 2021-11-03 The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression. But we in the West don't know much about Eastern Europe or its history; this book helps us see why. We got interested when the region became a threat during the Cold War, but what we learned focused on the Communist period after World War II, not Eastern Europe itself or its deep history, a history that continues to live in the hearts of its peoples. James Payton offers an accessible treatment of the history of the region, an opportunity to learn about Eastern Europeans as they are. He overviews that story from pre-history to the present, examining eleven turning points that profoundly shaped Eastern European history. His treatment considers the backgrounds to the turning points, the events, and the long-lasting impacts they had for the various Eastern European nations. This helps us understand how Eastern Europeans themselves see their history, the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves, their neighbors, and their place in the world. *Bosnian Studies* Dzeneta Karabegovic, Adna Karamehic-Oates, 2023-01-30 It has been 27 years since the end of the war in Bosnia and Herzegovina, and the history of the conflict, its consequences, and long

*Faith and Force* David L. Clough,Brian Stiltner,2007-06-04 This book began in an argument between friends surprised to find themselves on opposite sides of the

debate about whether the United States and the United Kingdom should invade Iraq in 2003 Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us We discovered the common ground we shared as well as some predictable and some surprising points of difference When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified From the Preface So began a dynamic collaboration that developed into a civil but provocative debate over matters of war and peace that is Faith and Force From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just But can the carnage of war ever be morally grounded And if so how These are the questions that David L Clough a Methodist proponent of pacifism and Brian Stiltner a Catholic theologian and just war adherent have vowed to answer together With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention weapons proliferation and preventative war against rogue states Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions In each chapter Clough and Stiltner engage in debate on the issues demonstrating a respectful exchange of ideas absent in much contemporary political discourse whether on television or in the classroom The result is a well reasoned challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful promotion of justice yet one that also recognizes genuine differences that cannot be bridged easily Intended for a broad audience Faith and Force is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use To help with using the book in a classroom context the authors have provided Questions for Reflection and Discussion for each chapter You can download these questions in PDF format at [press.georgetown.edu](http://press.georgetown.edu)
