Creating Urban Agricultural Systems Gundula Proksch, 2016-11-03 Creating Urban Agriculture Systems provides you with background expertise and inspiration for designing with urban agriculture. It shows you how to grow food in buildings and cities, operate growing systems, and integrate them with natural cycles and existing infrastructures. It teaches you the essential environmental inputs and operational strategies of urban farms and inspires community and design tools for innovative operations and sustainable urban environments that produce fresh local food. Over 70 projects and 16 in-depth case studies of productive integrated systems located in North America, Europe, and Asia are organized by their emphasis on nutrient, water, and energy management, farm operation, community integration, and design approaches so that you can see innovative strategies in action. Interviews with leading architecture firms including WORKac, Kiss Cathcart Weber Thompson, CJ Lim Studio, and SOA Architects highlight the challenges and rewards you face when creating urban agriculture systems. Catalogs of growing and building systems, a glossary, bibliography, and abstracts will help you find information fast.

Small Farm Handbook, 2nd Edition Laura Tourte, Ben Andrews, Faber, 2011 Since its publication in 1994, the Small Farm Handbook has been an essential resource for California's small farmers and the agricultural professionals advising them, selling over 4,300 copies. Now this invaluable reference has been updated and expanded for today's small-scale producers. The handbook covers three essential areas: Background skills and knowledge, the business side, and the farming side. Within these broad areas, you'll find specific chapters on Requirements for Successful Farming, Growing Crops, Raising Animals, Farm and Financial Management, Marketing, and Product Sales, Labor Management. Also included are profiles of six small farm operators representing a sample of California's diverse agriculture. Throughout, you'll get a look at emerging trends and issues for California agriculture and innovative methods for better production and management, all of which can lead to better farm performance. Drawing upon the knowledge of 32 experts from the University of California, no other publication covers the topics, issues, and facets of California's small-scale agriculture with this depth or level of expertise. From the basics to risk management, specialty crops, to marketing and product sales, this guide covers the gamut.

Getting a Job in the Food Industry Rita Lorraine Hubbard, 2013-07-15 People are becoming more interested in food thanks to TV shows like Top Chef and Chopped and celebrity chefs like Gordon Ramsey and Mario Batali. Luckily, that means an increase in jobs in the food industry. This guide to landing a great job in the food industry covers all career possibilities, including food preparation and farming. It provides several great tips on crafting the perfect resume and how to dress for an interview and includes other important strategies aimed at landing that essential job.

The SAGE Encyclopedia of Food Issues Ken Albala, 2015 The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas, including business, consumerism, marketing, and environmentalism. In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives, this carefully balanced academic encyclopedia

focuses on social and policy aspects of food production safety regulation labeling marketing distribution and consumption A sampling of general topic areas covered includes Agriculture Labor Food Processing Marketing and Advertising Trade and Distribution Retail and Shopping Consumption Food Ideologies Food in Popular Media Food Safety Environment Health Government Policy and Hunger and Poverty This encyclopedia introduces students to the fascinating and at times contentious and ever so vital field involving food issues
