Linke,2012-09 When we think we learned something new we are quite proud of it But it wears off quickly for an unknown reason So what is wrong with what we do When you start to think about the things you learn and what the reason or purpose actually is then you have to wonder sometimes is it really something new we just learned Because having in mind to learn something new can be quite exhausting at times Maybe we have to start to think about this in a different way and take a different approach in discovering new things It is like a treasure

hunt imagine that we are all pirates looking for an adventure or treasures Obviously our life is about searching for something but most of the time we don't even know what we are looking for We do this quite instinctively maybe we are preprogrammed in a way and we are not aware of it But when you find out who we are then everything seems to make sense Our entire world Universe stands on myth and mythology including our history making us wonder if it is real Lets look at life in a different way Learn more about our history maybe we can learn from old things our ancestors already knew and then set that aside and try to find your own way You most certainly will see things with different eyes This is what our life is all about it is a soul search where the experience we have along the way is the reward treasure In Australia the Aboriginal people are most likely a candidate for such an idea They go on a regular Walkabout which literally means looking for something They might find something which can be worth bringing home as an idea for which the whole community can benefit from This is what a walkabout is all about looking for something which is useful and has a value in the community After all we are constantly occupied by making a living or providing for our needs The westerners actually practice the same thing we call them the Backpackers People who go and see other parts of the world enjoy the diversity and beauty of nature as well as other cultures and traditions Yes we can learn something old have a lot of fun and it can be quite rewarding This book was taking shape based on an ironic thought How much knowledge there is and we know so little How come we know so little We know all the most complicated things there can be but we know very little of what life is about What is the cause for all things How does it all work What is the reason And last but not least How do we fit into everything Is it possible that we have taken valuable information from ancient Greek knowledge but ignored one of their most important practices the philosophy of all things Has everything to us become scientific or important because sciences can explain the real world Have we forgotten that this real world we live in comes from a mystical source something unseen Something we call a different dimension because we can't possibly explain it It is such an exotic source that it would take a lot of ancient knowledge to discover the truth Do you want to discover the truth This book might have some answers [Hidden Codes & Grand Designs](#) Pierre Berloquin, 2010-11-09 Did the Masons encode messages in walls and even in the street plan of Washington D C Does the Hebrew Bible conceal hidden mysteries Ingenious methods for encoding secrets have taken many amazing turns through the ages from the military signals the Romans flashed from hilltop to hilltop to the computer codes that guard your cash at the ATM Pierre Berloquin one of France's leading puzzle book authors takes you on a tour of them all in a book full of astonishing historical insights With more than 150 brain-teasing problems for readers to solve for themselves this is a journey beyond the gee whiz and deep into the how-to of codes ciphers and other secret communication systems **A Brief History of the Knights Templar** Helen Nicholson, 2014-03-07 Much has been written about the Knights Templar in recent years A leading specialist in the history of this legendary medieval order now writes a full account of the Knights of the Order of the Temple of Solomon to give them their full title bringing the latest findings to a general audience Putting many of the myths finally to

rest Nicholson recounts a new history of these storm troopers of the papacy founded during the crusades but who got so rich and influential that they challenged the power of kings A History of Banks Mehmet Baha Karan, Wim Westerman, Jacob Wijngaard, 2024-06-24 This book provides an overview of monetary history from the perspectives of the financial intermediaries who shaped it Starting from the Knights Templar and ending with contemporary national banking champions it presents several case studies that demonstrate how banks from around the world have revolutionized both their operations and the markets they operate in The text holds a plea for democratic and transnational financial intermediation systems It appeals to students and scholars of economic history as well as to anyone interested in the history of banking and finance
