Finding What Works in Health Care Institute of Medicine, Board on Health Care Services, Committee on Standards for Systematic Reviews of Comparative Effectiveness Research, 2011-06-20 Healthcare decision makers in search of reliable information that compares health interventions increasingly turn to systematic reviews for the best summary of the evidence Systematic reviews identify select assess and synthesize the findings of similar but separate studies and can help clarify what is known and not known about the potential benefits and harms of drugs devices and other healthcare services Systematic reviews can be helpful for clinicians who want to integrate research findings into their daily practices for patients to make well informed choices about their own care for professional

medical societies and other organizations that develop clinical practice guidelines Too often systematic reviews are of uncertain or poor quality There are no universally accepted standards for developing systematic reviews leading to variability in how conflicts of interest and biases are handled how evidence is appraised and the overall scientific rigor of the process In Finding What Works in Health Care the Institute of Medicine IOM recommends 21 standards for developing high quality systematic reviews of comparative effectiveness research The standards address the entire systematic review process from the initial steps of formulating the topic and building the review team to producing a detailed final report that synthesizes what the evidence shows and where knowledge gaps remain Finding What Works in Health Care also proposes a framework for improving the quality of the science underpinning systematic reviews This book will serve as a vital resource for both sponsors and producers of systematic reviews of comparative effectiveness research

Future Directions for the National Healthcare Quality and Disparities Reports Institute of Medicine, Board on Health Care Services, Committee on Future Directions for the National Healthcare Quality and Disparities Reports, 2010-09-10 As the United States devotes extensive resources to health care evaluating how successfully the U S system delivers high quality high value care in an equitable manner is essential At the request of Congress the Agency for Healthcare Research and Quality AHRQ annually produces the National Healthcare Quality Report NHQR and the National Healthcare Disparities Report NHDR The reports have revealed areas in which health care performance has improved over time but they also have identified major shortcomings After five years of producing the NHQR and NHDR AHRQ asked the IOM for guidance on how to improve the next generation of reports The IOM concludes that the NHQR and NHDR can be improved in ways that would make them more influential in promoting change in the health care system In addition to being sources of data on past trends the national healthcare reports can provide more detailed insights into current performance establish the value of closing gaps in quality and equity and project the time required to bridge those gaps at the current pace of improvement

Birth Settings in America National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Assessing Health Outcomes by Birth Settings, 2020-05-01 The delivery of high quality and equitable care for both mothers and newborns is complex and requires efforts across many sectors The United States spends more on childbirth than any other country in the world yet outcomes are worse than other high resource countries and even worse for Black and Native American women There are a variety of factors that influence childbirth including social determinants such as income educational levels access to care financing transportation structural racism and geographic variability in birth settings It is important to reevaluate the United States approach to maternal and newborn care through the lens of these factors across multiple disciplines Birth Settings in America Outcomes Quality Access and Choice reviews and evaluates maternal and newborn care in the United States the epidemiology of social and clinical risks in pregnancy and childbirth birth settings research and access to and choice of birth
