Knowledge And Christian Belief:

Knowledge and Christian Belief Alvin Plantinga, 2015-04-13 In his widely praised Warranted Christian Belief Oxford 2000 Alvin Plantinga discussed in great depth the question of the rationality or sensibility of Christian belief In this book Plantinga presents the same ideas in a briefer much more accessible fashion Recognized worldwide as a leading Christian philosopher Plantinga probes what exactly is meant by the claim that religious and specifically Christian belief is irrational and cannot sensibly be held He argues that the criticisms of such well known atheists as Richard Dawkins Daniel Dennett Sam Harris and Christopher Hitchens are completely wrong Finally Plantinga addresses several potential defeaters to Christian belief pluralism science evil and suffering and shows how they fail to successfully defeat rational Christian belief **Warranted Christian Belief** Alvin Plantinga, 2000 Describes the notion of warrant as that which distinguishes knowledge from true belief This volume examines warrant's role in theistic belief tackling the questions of whether it is rational reasonable justifiable and warranted to accept Christian belief and whether there is something epistemically unacceptable in doing so

The Historian and the Believer Van Austin Harvey, 1996 A milestone work in Christian theology available again As a critic of the contemporary theological scene Van Harvey has few if any competitors This is nowhere clearer than in The Historian and the Believer the classic discussion of its topic Rich in insight and penetrating in argument it is one book that belongs in the library of every theologian and seminarian Schubert M Ogden author of Doing Theology Today Is it possible to be both a historian and a Christian Van Harvey's classic The Historian and the Believer posed that question when it was first published In this printing the author has provided a new introduction in which he reflects on how he would reframe his original argument in order to bring out more fully the basic theological intention underlying his view that Christian faith cannot rest on dubious historical claims From reviews of the first edition Probably the most interesting piece of American theological writing to appear this year John Reumann Union Seminary Quarterly Review **Debating Christian Religious**

Epistemology John M. DePoe, Tyler Dalton McNabb, 2020-02-06 What does it mean to believe in God What passes as evidence for belief in God What issues arise when considering the rationality of belief in God Debating Christian Religious Epistemology introduces core questions in the philosophy of religion by bringing five competing viewpoints on the knowledge of God into critical dialogue with one another Each chapter introduces an epistemic viewpoint providing an overview of its main arguments and explaining why it justifies belief The validity of that viewpoint is then explored and tested in a critical response from an expert in an opposing tradition Featuring a wide range of different philosophical positions traditions and methods this introduction Covers classical evidentialism phenomenal conservatism proper functionalism covenantal epistemology and traditions based perspectivalism Draws on MacIntyre's account of rationality and ideas from the Analytic and Conservatism traditions Addresses issues in social epistemology Considers the role of religious experience and religious texts Packed with lively debates this is an ideal starting point for anyone interested in understanding the major positions in

contemporary religious epistemology and how religious concepts and practices relate to belief and knowledge **On**

Faith and Modern Thought Timothy Hull, 2020-10-29 Get the full picture Understand the whole story Faith and Modern Thought is a jargon busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern world especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired Tim Hull provides the wider intellectual picture the fuller philosophical story in which modern theology was forged After an engaging introduction to the European Enlightenment and the cultural crisis it triggered the stage is set to understand the essence of modern theology From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored exposing a deep rooted indebtedness to the Enlightenment tradition **Faith's Defenders** Dr. Octavian Caius Obeada, 2024-07-28 Faith's Defenders The Christian Apologetic Mission

offers a comprehensive exploration of the crucial role of apologetics in the Christian Church It examines the foundational beliefs historical challenges and modern day threats to Christianity while providing a detailed overview of apologetics from early Christianity to the present The book emphasizes the need for respectful and intellectually rigorous strategies to engage with contemporary culture address doubts and reinvigorate faith Drawing on insights from renowned defenders of the faith it highlights the importance of apologetics in strengthening the Church's witness and fostering meaningful dialogue making a compelling call for the Church to present the gospel with confidence clarity and compassion You can find the PAPERBACK version on Amazon <https://amzn.to/4jiSDjr> **Faith's Knowledge** Paul Tyson, 2013-05-02 Can we know truth even though

certain proof is unattainable Can we be known by Truth Is there a relationship between belief and truth and if so what is the nature of that relationship Do we need to have faith in reason and in real meaning to be able to reason towards truth These are the sorts of questions this book seeks to address In Faith's Knowledge Paul Tyson argues that all knowledge that aims at truth is always the knowledge of faith If this is the case then against our modernist cultural assumptions about knowledge truth cannot be had by proof Yet if this is true then mere information and simply objective facts do not for us as knowers exist Knowledge is always embedded in belief and knowledge and belief is always expressed in relationships histories narratives shared meanings and power Hence a theological sociology of knowledge emerges out of these explorations in thinking about knowledge as a function of faith **The Elements of Christian Knowledge; Or, a Compendium of the Christian Religion, in the Form of a Catechism ... Reformation's core principles offers an answer to critics of Protestant biblical interpretation Vanhoozer explores how a proper reappropriation of the five solas sola gratia grace alone sola fide faith alone sola scriptura Scripture alone solus Christus in Christ alone and sola Deo gloria for the glory of God alone offers the tools to constrain biblical interpretation and establish interpretive authority He offers a positive assessment of the Reformation showing how a retrieval of mere Protestant Christianity has the potential to reform contemporary Christian belief and practice This provocative response and statement from a top theologian is accessibly written for pastors and church leaders Reformed Epistemology and the Structure of Knowledge Shawn M. Langley, 2024-12-15

Reformed Epistemology and the Structure of Knowledge Cornelius Van Til and Alvin Plantinga on Belief develops a comparison of the epistemological formulations of Cornelius Van Til and Alvin Plantinga Initial focus is placed on developing the extent to which Van Til's work demonstrates a discernible theory of knowledge and an argument is made for interpreting his epistemology as directly dependent on the conceptual resources of British Idealism It is shown through Van Til's appropriation of these resources that an idealist theory of knowledge is indispensable to but not identifiable with his distinct epistemological formulations Attention then shifts to further clarification of these categories by way of Plantinga's proper functionalist account of warrant Here the underlying structure of knowledge for both Van Til and Plantinga is examined demonstrating that Van Til's formulations neither endorse an idealist coherentism nor exclude Plantinga's foundationalism Subsequent comparisons then consider arguments for meaningful similarity between each program and give special consideration to the implications of such a comparison for contemporary discourse surrounding Van Til and Plantinga Warranted Christian Belief Alvin Plantinga, 2000-01-27 This is the third volume in Alvin Plantinga's trilogy on the notion of warrant which he defines as that which distinguishes knowledge from true belief In this volume Plantinga examines warrant's role in theistic belief tackling the questions of whether it is rational reasonable justifiable and warranted to accept Christian belief and whether there is something epistemically unacceptable in doing so He contends that Christian beliefs are warranted to the extent that they are formed by properly functioning cognitive faculties thus insofar as they are warranted Christian beliefs are knowledge if they are true *An Introduction to the Knowledge of the Christian Religion* Henry Crossman, 1821

Religious Experience and the Knowledge of God Harold A. Netland, 2022-02-08 For many Christians personal experiences of God provide an important ground or justification for accepting the truth of the gospel But we are sometimes mistaken about our experiences and followers of other religions also provide impressive testimonies to support their religious beliefs This book explores from a philosophical and theological perspective the viability of divine encounters as support for belief in God arguing that some religious experiences can be accepted as genuine experiences of God and can provide evidence for Christian beliefs *An introduction to the knowledge of the Christian religion; in two parts ... Knowledge, Belief, and God Matthew A. Benton, John P. Hawthorne, Dani Rabinowitz, 2018 Recent decades have seen a

fertile period of theorizing within mainstream epistemology which has had a dramatic impact on how epistemology is done. Investigations into contextualist and pragmatic dimensions of knowledge suggest radically new ways of meeting skeptical challenges and of understanding the relation between the epistemological and practical environment. New insights from social epistemology and formal epistemology about defeat, testimony, a priori probability and the nature of evidence all have a potentially revolutionary effect on how we understand our epistemological place in the world. Religion is the place where such rethinking can potentially have its deepest impact and importance. Yet there has been surprisingly little infiltration of these new ideas into philosophy of religion and the epistemology of religious belief. Knowledge, Belief and God incorporates these myriad new developments in mainstream epistemology and extends these developments to questions and arguments in religious epistemology. The investigations proposed in this volume offer substantial new life, breadth and sophistication to issues in the philosophy of religion and analytic theology. They pose original questions and shed new light on long standing issues in religious epistemology and these developments will in turn generate contributions to epistemology itself since religious belief provides a vital testing ground for recent epistemological ideas.

The Mosaic of Christian Belief Roger E. Olson, 2016-04-01 In this second edition of Roger E. Olson's classic work he thematically traces the contours of Christian belief down through the ages, revealing a pattern of both unity and diversity. He finds a consensus of teaching that is both unitive and able to incorporate a faithful diversity when not forced into the molds of false either/or alternatives.

Knowledge for the Love of God Timothy Pickavance, 2022-08-25 What is the role of the intellect in the life of faith? Jesus commanded us to love God with our minds, but why? Isn't simply believing enough? Confused on this point, many Christians choose to focus only on the role of their hearts in shaping their faith and consider that adequate. Some Christians go even further, arguing that knowledge exists in opposition to faith; that one must choose either the truth of science or the truth of the Bible. The reality is that our formation into Christlikeness relies heavily on our minds, and that Christian belief is about thinking more, not less. Far from being a threat, the intellect is central to faith so long as it is treated as an instrument of worship rather than as the object of worship. Knowledge for the Love of God is for followers of Jesus needing to better understand the crucial connection between faith and rationality. Timothy Pickavance shows how learning about who God is and what he has done, is doing and will do, draws us closer to him just as in any relationship. With stories from his own experiences wrestling with this aspect of faith, Pickavance relates a compelling vision of how cultivating the intellect strengthens our Christian worldview, helps us gain freedom in Christ and enables us to love God with our whole being. Discussion questions at the end of each chapter make this a book to be fruitfully shared among fellow believers desiring a deeper faith, one of heart, soul, strength and mind.

Knowledge and Scientific and Religious Belief Paul Weingartner, 2018-09-10 The present book is a book on epistemology with the special and new focus on the relation of different types of knowledge and a differentiated comparison to both scientific and religious belief. The present book

distinguishes seven types of knowledge and compares them with both scientific and religious belief The usual view is that scientific and religious belief have nothing or not much in common Although there are important differences in contradistinction to this widespread view it is shown that there are also many similarities between them There are similarities concerning the reasons for belief with respect to the action of believing concerning a similar voluntary component or even concerning properties of the content of belief A detailed discussion of many types of knowledge and a differentiated comparison to scientific and religious belief is an important new contribution to the scientific literature in epistemology
